3- COIL WIRELESS CHARGER

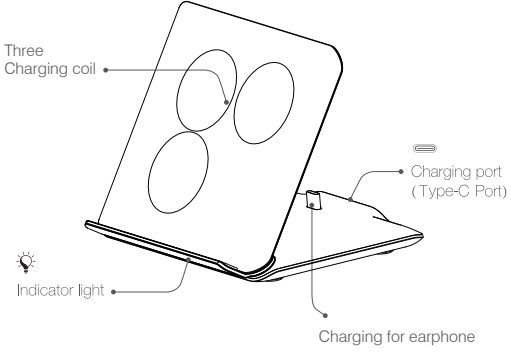

Product Specification

Model NO: DT-X8

SPECIFICATIONS:

Output Max: 15W+3W
Input: 9V/2A
Coil: 3-Coils
Distance: ≤5mm
Interface: Type C
Material: PC+ABS+Silicone

Product Show

Charge Vertically Or Horizontally

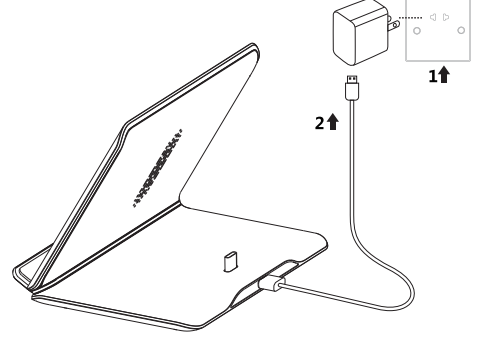

Case Friendly

Sleep Friendly

Certified Safe

How to Work

1. Connect a charger to the wireless charger.

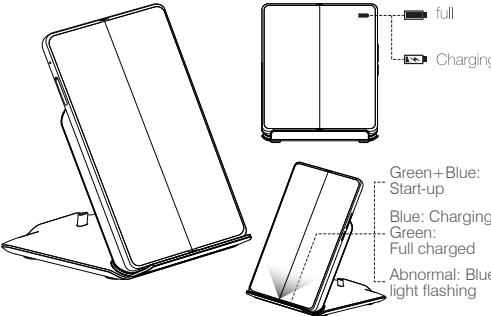

Highly recommended to use QC3.0 / PD charger (9V / 2A) and type-c cable with DT-X8 for fast charging. A lower power source may result in longer charging time, charging errors or lower charging efficiency performance.

背面

2. Place a mobile phone & earphone on the charger.

Check the charging icon displayed on the mobile phone's screen for the charging status.
Check the light of earphone for the charging status.

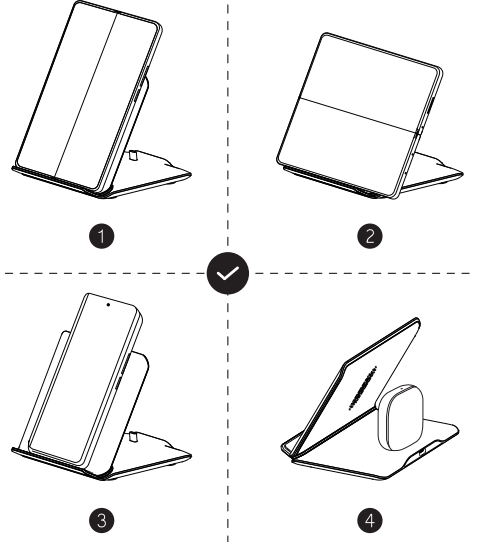

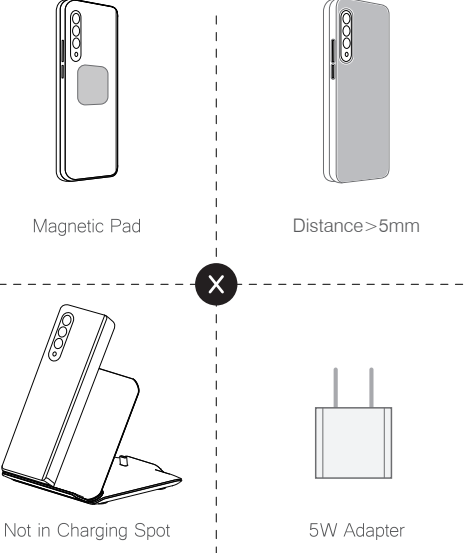

Green+Blue: Start-up
Blue: Charging
Green: Full charged
Abnormal: Blue light flashing

Indicator light identification:

Color of light	Working status
Blue	Charging
Green	Full charged only for samsung
Flashing Blue	1. Not charging properly due to a general error 2. Low power input (less than 9V/2A)

4. Charging Modes.

Product specific safety information

Place the device on flat surface.
Keep the device dry.
Do not attempt to open the device.
Do not place bank cards near the device.

FCC Caution

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:
(1) This device may not cause harmful interference,
(2) This device must accept any interference received, including interference that may cause undesired operation.

FCC Warning

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

The equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. During the operation of device a distance of 15 cm surrounding the device and 20 cm above the top surface of the device must be respected.
