SAFETY INFORMATION

To ensure safe and lasting enjoyment of your unit, please follow these guidelines:

Protect from Moisture: Avoid exposing the unit to liquids, rain, or humid environments. Gentle Cleaning Only: Use a soft, dry cloth to clean the unit case. Avoid abrasive cleaners that could damage the finish.

Handle with Care: Refrain from dropping, disassembling, deforming, modifying, or inserting objects into the unit.

Professional Service Only: Do not attempt to repair, modify, or disassemble the unit yourself. There are no user-serviceable components inside, and tampering may void the warranty.

Prevent Scratches: Keep the unit away from sharp objects to avoid scratches and potential damage.

Turn it Off When Needed: Follow all signage that requires turning off electronic devices in designated areas.

Temperature Matters: Avoid exposing the unit to extreme hot or cold temperatures.

Direct Sunlight Warning: Keep the unit out of direct sunlight.

FCC NOTICE

Any Changes or modifications not expressly approved by the party responsible

for compliance could void the user's authority to operate the equipment. This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) This device must accept any interference received, including interference that may cause undesired operation.

FCC Radiation Exposure Statement:

This equipment complies with FCC radiation exposure limits for an uncontrolled environment. This equipment should be installed and operated with a minimum distance of 20cm between the radiator & your body. Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to protect reasonably against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment to an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.
