Class II Permissive Change Cover Letter

SUBJECT: Class II Permissive Change for FCC ID : 2AVQ5BT-ACTB-L

The intension of this application is to enable the modular FCC ID: 2AVQ5BT-ACTB-L, granted on 04/08/2021 to be integrated in BlueTooth Module, Model : BT-ACTB-L

The module installed into host platform mentioned above is electronically and mechanically identical to the original certified module. The Original FCC testing on module under FCC ID:2AVQ5BT-ACTB-L was connected to the module in an open environment. The current host platform under application uses an antenna of the same type but of lower gain and is installed inside the host platform enclosure. The physical restraints introduced by the host platform should have resulted in equal or lower level of radiated emission. Therefore, additional Radiated emission testing is not necessary. Software security remains unchanged from the original application.

Except for the change above, the design, hardware and implementation are exactly same with original.

If you have any questions regarding this application, please feel free to contact me.
