The above materials contain trade secrets and proprietary information not customarily released to the public. The public disclosure of these materials may be harmful to BLP Technologies and provide unjustified benefits to its competitors.

BLP Technologies understands that pursuant to Section 0.457 of the Rules, disclosure of this application and all accompanying documentation will not be made before the date of the Grant for this application.

Pursuant to DA04-1705 June 15, 2004 of the Commission's public notice, we also require short term confidential treatment of information for a period of 180 days.
