

Manual

Model:GT100W
FCC ID: 2AVSB-GT100W
Manufacturer:Shenzhen Mgctech Co.,Ltd.
Wireless Power Bank

Function

1

Support charging and discharging at the same time

Supports wireless charging for mobile phones

2

Multiple charging options

Support charging iPhone, iPad, etc.

Support charging for Huawei, Samsung phones, tablet, etc.

3

USB-C Charger

USB-A Charger

4

Wireless Power Bank	
Model	GT100W
Battery capacity	10000mAh(5000mAh*2) Power:5000mAh 7.7Vdc/38.5Wh
USB-C/USB-Cable input	5V≐3A/9V≐3A/12V≐2.5A/15V≐2A /20V≐1.5A(30W)
USB-C/USB-Cable output	5V≐3A/9V≐3A/12V≐3A/15V≐3A/20V≐2.25A 45W (Max)
Lightning output	5V≐2.4A
Wireless Output	25W (Max)
USB-C /USB-Cable /Lightning/Wireless Output	5V ≐ 3A(Max)

*Please use a power adapter that has CCC certification and meets the standard requirements.

FCC Warning

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

Consult the dealer or an experienced radio/TV technician for help. The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
