

IC-20P 15W产品说明书

尺寸：280*100mm 双面印刷 材质：128克铜版纸

User Manual

Wireless Car Charger

FCC ID:2AVS8-IC-20P
Manufacturer:Shenzhen MgcTech Co.,Ltd.

Product Features

1.Built-in magnets and wireless charging coil, automatically attaches and charges when phone is placed.

2.Standby mode: Ice blue light stays on when powered on. Charging mode: Ice blue light turns off.

3. Charging mode: Ice blue light turns off.

4.FOD function: Blue light flashes to remind when metal or magnetic objects are detected; charging stops.

5.Full protection: Over-temperature, over-voltage, etc.

Operating Guide

1. Ensure the product is connected to power before use.

2. Green light stays on when power is connected.

3. Ice blue light flashes and charging stops when overcurrent or foreign objects are detected; stop charging in this case.

4. Buy a wireless receiver separately if your phone does not support wireless charging (not included).

Product Parts Description

Parts List

①	Tempered glass
②	Charging coil magnetic sheet
③	Ring-shaped magnet
④	Aluminum alloy ring
⑤	PCBA board
⑥	Bottom cover
⑦	Vent Clip

Specifications

Input	DC 5V/2A DC 9V/2A
Output	5W/7.5W/10W/15W
Charging Distance	≤3mm
Charging Efficiency	≤78%
Product Dimension	60*60*32mm
Product Material	ABS+Tempered Glass

Attention

1.Do not squeeze or collide violently.

2.Do not disassemble, burn or submerge in water when powered on to avoid short circuit or electric leakage.

3.Do not use in high temperature, high humidity or corrosive environments.

4.Do not place magnetic/IC cards (ID card, bank card, etc.) on the charger to avoid demagnetization.

5.Do not place metal objects (coins, etc.) on the charger during charging to avoid overheating damage.Compatible with all Qi-certified wireless charging phones; others need an external receiver.

Note:This product is applicable to all Qi standard wireless charging phones.

FCC Warning

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:
(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

• Reorient or relocate the receiving antenna.

• Increase the separation between the equipment and receiver.

• Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

• Consult the dealer or an experienced radio/TV technician for help.

FCC RF exposure statement:
The equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance between 20cm the radiator your body.
