Wireless Power Bank

◆ Product Specifications

Product Name	Wireless Power Bank
Model	P50
Material	PC+ABS (UL94-V0)
Rated Capacity	3200mAh (5V =3A)
Battery Capacity	5000mAh
Battery Energy	5000mAh 3.85VDC/19.25Wh
Input	5V=3A/9V=1.67A(15W)
Output	5V=3A/9V=2.22A/12V=1.67A(30W)
Wireless Output	15W (Max)
Combined Output	5V = 3A (Max)
Product Dimensions	58.5*76*15mm
Operating Temperature	0°C-40°C
Product Weight	120g

◆ Packing List

Power Bank*1/User Manual*1/Type-C data cable*1

◆ Function Introduction

◆ Light display mode

Charging: Battery rises, units digit flashes. Steady at 100%.
Discharging: Battery drops, steady display. Green fast-charge icon ⚡ for fast output.Flash below 5% low power.
Active Wireless Charging: Steady battery display; green fast-charge icon ⚡ for fast charge.
Wireless Charging Error: Wireless charge shut down, battery display steady. Restore after FOD cleared.
Low-Current Mode: Long press ~2s after power on to enter: units digit scrolling. Exit by double click or long press.
Low voltage protection: 0 current, indicators off.
Overvoltage protection: battery display flashes.

※If consumers use a power adapter for power supply, they should purchase a matching power adapter that has obtained CCC certification and meets standard requirements.

● Operating Environment

- ⚠ Do not disassemble the battery. Keep away from fire and high temperatures. Please pay attention to environmental protection.
- 💧 Do not use after being immersed in water.

◆ Wireless charging

◆ Wired Charging

◆ Precautions

- Please read this manual carefully before using this charging device. Fully charge the device before first use.
- To avoid electric shock, do not operate this device with wet hands, and do not use it in high-intensity or harsh environments.
- Please only use a grounded power supply or a standard power adapter that meets the specified parameters to power the device.

◆ FCC Warning

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.
Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.
The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
