Wireless Power Bank

Hybrid Solid-State Magnetic Wireless Charging: Z100D, featuring magnetic attachment for mobile phones, wireless charging and portable power supply functions, supporting C port / Type-C Cable Bidirectional charging and discharging, supporting a maximum discharge of 45W and a charge of 30W; supporting C port/Type-C Cable/Lightning Cable/ Wireless Charging Automatic Wakeup Function.At the same time, the back clip can also function as a stand, mainly for Apple/ Samsung series mobile phones, etc., for wired/wireless charging.

Please read this manual carefully and charge the device fully before first use

In order to avoid electric shock,do not operate the equipment with wet hands,and do not use it in high strength and harsh environments.

Charge only with a grounded power supply or a surface adaptor with standard powerparameters.

Features

Indicator Light Work Instructions

Power On: The battery level display completely turns on and then turns off. Activation is required upon first use.Charging: The display shows the current battery level, with the last number flashing. A fast charging icon will appear during fast charging. The "100%" indicator light will remain on when fully charged.
Discharging: The display shows the current battery level. A fast charging icon will appear during fast charging.
When discharging to "5%", the numbers begin to flash. When the power bank is discharged to "0%", it shuts down.
When the power bank is reactivated, a flashing "0%" low battery warning will appear.
Error: A flashing "188" indicates an error.

Charging Your Devices

Support charging Apple iPhone 6s and above models.

Support Phones with magnetic wireless charging function.

How to Use the Folding Stand

Opening the holder, rotate it to the angle as needed

Support charging by Type-C cable

USB-C Wall Charger

USB-C Wall Charger

Wireless Power Bank

Model	Z100D
Capacity	10000mAh
Input	USB-C/Type-C Cable Input: 5V=3A/9V=3A/12V=2.5A/ 15V=2A/20V=1.5A (30W)
Output	USB-C/Type-C Cable Output : 5V=3A/9V=3A/12V=3A/15V=3A /20V=2.25A(45W) Magnetic Wireless :25W (Max)

*Please use a power adapter that has CCC certification and meets the standard requirements.

● Environmental Requirements:

- Do not disassemble the battery. Keep away from fire and high temperatures. Dispose of it responsibly.
- Do not use after submersion in water.

FCC Warning

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
