

## Justification for Re-use of Radio Test Results

We, Bosch Global Software Technologies Private Limited believe that the conducted signal test data on original reports provided by the Quectel wireless solution Co., Ltd (**Wi-Fi & Bluetooth Module**, FCC ID: **XMR202303AF20**. Provided by **TA Technology (Shanghai) Co., Ltd.** and **Cellular Module AG35-NA**, FCC ID: **XMR201905AG35NA**. Provided by **Sporton International (Kunshan) Inc.** can be re-used for the following reasons:

1. Applicant has built in the radio module according to the specific radio module integration guides.
2. No changes have been made on radio module except LTE & Wi-Fi module antenna.
3. Re-test the conducted power for spot check verification, the radiated spurious emission and co-located emission, and re-evaluated the RF Exposure.
