

BUTTER BOT

An AI-powered robotic gadget

From Rick's lab to your home

- Meet your new best friend

Butter Bot is your new sidekick that can fit in the palm of your hand so you can take it on all of your adventures.

Your buttery friend comes with an awesome remote controller for precise maneuvering and brings some interdimensional fun with an integrated display.

What can Butter Bot do on its own?

1. Simple conversation

Have a conversation! BB will recognize your voice prompts and respond accordingly.

How does it work?

Once turned on, simply say the voice prompts.

- Voice prompt - Number one
 - BB response - *"What is my purpose?"*
- Voice prompt - You make revenue
 - BB response is - *"Oh my god."*
- Voice prompt - Number two
 - BB response - *"Master, I can do so much more! I can recognize objects, connect to your phone, and I have more than 400 voice lines and commands."*
- Voice prompt - Tell me a joke
 - BB response - *(will tell a random joke or fact)*
- Voice prompt - What is the time
 - BB response - *"10:45"*
- Voice prompt (randomized response) - Who is your favorite Rick & Morty character?
 - BB response - *"My original maker - Rick."*
 - BB response - *"I am."*
 - BB response - *"Mr. Meeseeks."*
 - BB response - *"Jerry is most definitely not a favorite."*
- Voice prompt for reminder (give a voice memo and time) - Remind me in 2 hours to take out the trash
 - BB response - *"Ok, I will remind you in two hours to take out the trash"*
- Voice prompt for playing Rock, Paper, Scissors - Let's play Rock, Paper, Scissors
 - BB response - *"Tell me your choice in three... two... one..."*
 - After you tell it your choice, it will give its own, and proceed to say one of these randomized options depending on whether it won or lost:
 - BB response after losing:
 - *"Wubba lubba lose-lose!"*
 - *"Looks like I need a firmware update."*

- *"If I had a heart, it'd be broken. But I don't, so... whatever."*
- *"Great. Just another existential crisis to add to my list."*
- *"Time for some reprogramming."*
- BB response after winning:
 - *"Smashed you like a Plumbus factory!"*
 - *"Winning feels butterlicious!"*
 - *"Butter luck next time!"*
 - *"You can't outsmart the butter"*
 - *"In your face! Butter rules."*
- BB response after a tie:
 - *"Oh well."*

What can Butter Bot do with a controller?

Take over and control BB with the controller!

When controlled remotely, BB's autonomous functions shut down, and you are in command until you decide to give it its sentence back.

For pairing the BB with the controller, you need to use the voice prompt "Pair with controller", and it will go into pairing mode.

While controlling BB, the controller's display shows what BB sees, and you can use the joystick to move him around.

1. Attack mode

Find out about BB's chaotic side.

How does it work?

Press the Attack button on the controller. It times out after 10 seconds.

BB will start shouting and lunging at the objects nearby:

- *"Hiyaah", "EXTERMINATE"*
- *"I'm here to kick butt"*
- *"Prepare to get riggity-riggity-wrecked"*
- *"Attack mode activated"*
- *"Incoming butter bomb"*

- *"You messed with the wrong Butter Bot, pal"*
- *"Prepare for an intergalactic smackdown"*
- *"Taste the butter fury"*

2. Summon mode

Find out about BB's obedient side.

How does it work?

Press the Summon button on the controller. It times out after 20 seconds.

BB will start looking for you, turning in circles, while saying the line: *"Where are you master?"*

3. Wander mode

It's time for an existential crisis.

How does it work?

Press the S#!T button on the controller. Wander mode activates and deactivates with the same button.

BB will start driving around, while occasionally saying the line: *"What is my purpose?"*

4. 8-Ball mode

Let BB help you with your questions.

How does it work?

Press the 8-ball button on the controller. Wa

BB will answer with a randomized response

- *"Yes, definitely."*
- *"Wubby lubba dub dub, yes!"*
- *"You know it!"*
- *"Are you out of your mind?"*

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction
