

Smart Watch

User Manual

Model: ZW69S

1. Description of Appearance

Note: Please consult the product material in detail before purchase to avoid allergies to the material. Due to individual differences, if you encounter skin discomfort when wearing it, please stop wearing it and consult a doctor.

2. Charging and Power on

Charging: Draw the charging cable to the charging area to charge. Power on: The charging can be turned on automatically or by long pressing the up button to power on.

3. Download the APP and bind the watch

(1) Download the APP

Scan the QR code and download the Da Fit application.

Note: The mobile phone system must support Android 5.1 or iOS 9.0 and above, and Bluetooth 4.0 and above.

(2) Bind watch

After turning on the watch, please complete the pairing of the device and the phone through the Da Fit APP before it can be used normally.

Binding steps:

Android phones: After the APP is successfully bound, the phone will automatically pop up the Bluetooth ZW69S_PHONE pairing window, select "Pair".
IOS mobile phone, bind the call Bluetooth, open the mobile phone settings Bluetooth option, search for "ZW69S_PHONE" to select the connection.

Note:

Before binding the APP, the Bluetooth setting of the watch needs to be turned on, as shown below:

Common problem:

1. Connect Bluetooth:
1.1 Please power on your phone Bluetooth before connection;
1.2 Please ensure your smart bracelet didn't connect with other phone before connecting
1.3 If the Bluetooth can't be bound, the watch needs to select in the call interface when binding the Bluetooth.
2. There is no call reminder for the mobile phone call watch. First, please make sure that the Da Fit app program runs in the background. Second, the Da Fit app message push setting option "phone and message" switch needs to be turned on.
3. In order to ensure the accuracy of the test data, after entering the blood oxygen test mode, please keep your body relaxed during the test, and do not speak or shake your body during the test.
4. The watch only supports songs in MP3 format.
5. Please refer to Da Fit APP Help: Personal Center -> Background Operation Protection Guide for Android mobile phone APP running in the background.

4. Use the Touch Screen

5. Phone Call

After connecting the Smart Watch to the phone, you can use the watch to dial to control the phone for making calls and answering the phone calls. You can also view the call history of the watch. You need to keep the connection between the watch and the phone stable when using the Phone Call function.

6. Smart Watch Features
