Solder Board-Component View 6	 A photograph showing a small electronic component, likely a microcontroller or sensor module, mounted on a black printed circuit board (PCB). The component is populated with various surface-mount components including resistors, capacitors, and integrated circuits. It features a header with several pins extending from one side. A black ruler with white markings is placed below the board for scale, showing measurements in millimeters (0 to 100 mm) and centimeters (0 to 10 cm).
Antenna View	 A photograph showing a red rectangular component, identified as a 2.4G Hopping TX Antenna, connected to two black cables. The cables are plugged into a red USB-A connector. A black ruler with white markings is placed below the component for scale, showing measurements in millimeters (0 to 100 mm) and centimeters (0 to 10 cm). A red box with a red arrow points to the antenna component.
