Photo 4

A photograph of a green, curved printed circuit board (PCB) against a blue background. The PCB features three square components, likely sensors or microchips, mounted along its length. Various markings are visible, including "202011218", "LY1107-32881-U2.0", "M2:14", "TX", "RX", "SU", "G", "M+", and "M-". There are also circular holes and small rectangular pads on the board.
