

Please scan the QR Code, or get Smart Life downloaded from App Store or Android Market.

1. Add device

1.1. Download Smart Life APP

1.2. Register an account in Smart Life

Open Smart Life into account registration page, click on the upper right corner of the "Register" .

1.3. Add devices(for example, Smart Bulb)

After login to Smart Life APP click on "+" .

- Smart Life APP supports two types of distribution network modes: EZ mode and AP mode. EZ mode is default.
- EZ Mode:The indicator light flashes rapidly.(Two times a second)
- AP Mode: The indicator light flash slowly

- Select the Wifi you are using and input the password,Click "next"to connect the device.

1.4. Rename the device

After the device is added successfully, click the device description text to modify device name. The name of the device is recommended to use easy pronunciation of the English words. (Amazon Echo only supports English temporarily)

Multiple devices can be added and renamed according to the above procedures.

2. Enable Smart Life skill in Alexa APP

Choose "Skills" in the options bar, and then search "Smart Life" in the input box.

Select "Smart Life" in the search results, and then click "Enable Skill" .

Then input the user name and password that you had previously registered. Only support the account in the United States.
