Getting Started

When the watch shows that a battery is low, connect the watch to a USB port with a charging cable. The watch will charge. When the watch is fully charged, the battery level will be 100%.

1. Remove the bands, turn on the watch and find the quick-release lever.
2. While pressing the quick-release lever inward, slide the end of the watch into the USB port.
3. Hold the end of the charging cable near the port on the back of the watch until a secure magnetic connection is made.

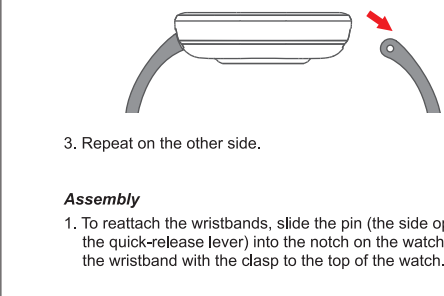

Wearing Your Watch

1. Remove the bands, turn on the watch and find the quick-release lever.
2. While pressing the quick-release lever inward, slide the end of the watch into the USB port.
3. Hold the end of the charging cable near the port on the back of the watch until a secure magnetic connection is made.

1. Remove the bands, turn on the watch and find the quick-release lever.
2. While pressing the quick-release lever inward, slide the end of the watch into the USB port.
3. Hold the end of the charging cable near the port on the back of the watch until a secure magnetic connection is made.

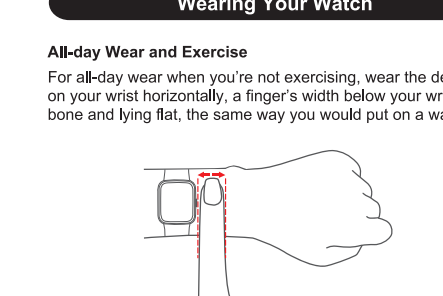

Using Your Watch

1. Remove the bands, turn on the watch and find the quick-release lever.
2. While pressing the quick-release lever inward, slide the end of the watch into the USB port.
3. Hold the end of the charging cable near the port on the back of the watch until a secure magnetic connection is made.

1. Remove the bands, turn on the watch and find the quick-release lever.
2. While pressing the quick-release lever inward, slide the end of the watch into the USB port.
3. Hold the end of the charging cable near the port on the back of the watch until a secure magnetic connection is made.

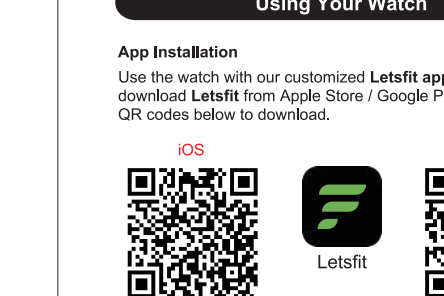

Account Registration and Login

1. Remove the bands, turn on the watch and find the quick-release lever.
2. While pressing the quick-release lever inward, slide the end of the watch into the USB port.
3. Hold the end of the charging cable near the port on the back of the watch until a secure magnetic connection is made.

1. Remove the bands, turn on the watch and find the quick-release lever.
2. While pressing the quick-release lever inward, slide the end of the watch into the USB port.
3. Hold the end of the charging cable near the port on the back of the watch until a secure magnetic connection is made.

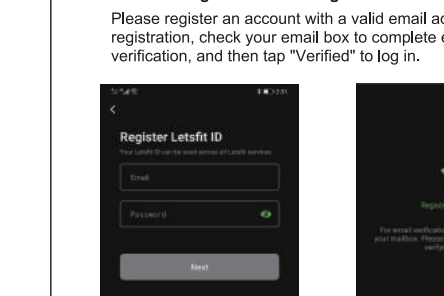

Pairing the Watch with Your Phone

1. Remove the bands, turn on the watch and find the quick-release lever.
2. While pressing the quick-release lever inward, slide the end of the watch into the USB port.
3. Hold the end of the charging cable near the port on the back of the watch until a secure magnetic connection is made.

1. Remove the bands, turn on the watch and find the quick-release lever.
2. While pressing the quick-release lever inward, slide the end of the watch into the USB port.
3. Hold the end of the charging cable near the port on the back of the watch until a secure magnetic connection is made.

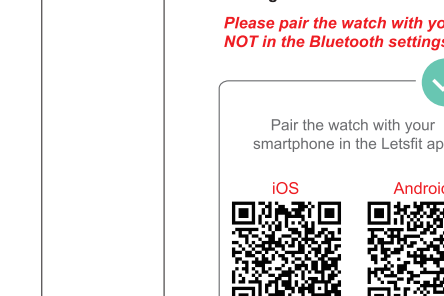

App Interfaces

1. Remove the bands, turn on the watch and find the quick-release lever.
2. While pressing the quick-release lever inward, slide the end of the watch into the USB port.
3. Hold the end of the charging cable near the port on the back of the watch until a secure magnetic connection is made.

1. Remove the bands, turn on the watch and find the quick-release lever.
2. While pressing the quick-release lever inward, slide the end of the watch into the USB port.
3. Hold the end of the charging cable near the port on the back of the watch until a secure magnetic connection is made.

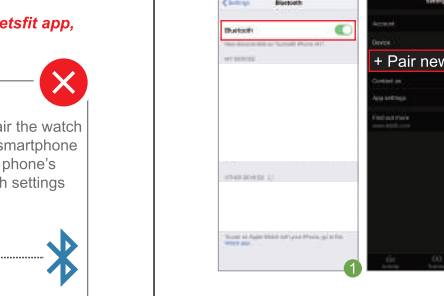

Basic Operation

1. Remove the bands, turn on the watch and find the quick-release lever.
2. While pressing the quick-release lever inward, slide the end of the watch into the USB port.
3. Hold the end of the charging cable near the port on the back of the watch until a secure magnetic connection is made.

1. Remove the bands, turn on the watch and find the quick-release lever.
2. While pressing the quick-release lever inward, slide the end of the watch into the USB port.
3. Hold the end of the charging cable near the port on the back of the watch until a secure magnetic connection is made.

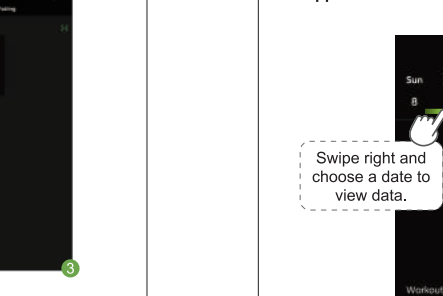

Watch Interfaces

1. Remove the bands, turn on the watch and find the quick-release lever.
2. While pressing the quick-release lever inward, slide the end of the watch into the USB port.
3. Hold the end of the charging cable near the port on the back of the watch until a secure magnetic connection is made.

1. Remove the bands, turn on the watch and find the quick-release lever.
2. While pressing the quick-release lever inward, slide the end of the watch into the USB port.
3. Hold the end of the charging cable near the port on the back of the watch until a secure magnetic connection is made.

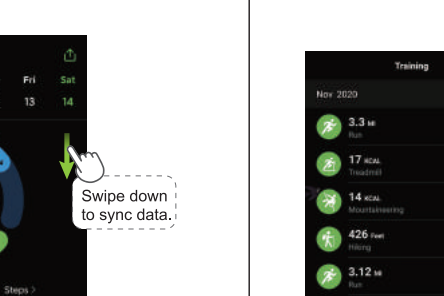

App Interfaces

1. Remove the bands, turn on the watch and find the quick-release lever.
2. While pressing the quick-release lever inward, slide the end of the watch into the USB port.
3. Hold the end of the charging cable near the port on the back of the watch until a secure magnetic connection is made.

1. Remove the bands, turn on the watch and find the quick-release lever.
2. While pressing the quick-release lever inward, slide the end of the watch into the USB port.
