First, to set up your frame follow the 'Quick start guide' included in the package. If you are new to using frameo then start by following the frameo quick setup on page or follow the on screen guide when powering it on for the first time. Once you have set up your Frameo frame, start connecting it to your friends and family. Frameo app To send photos to your frame, use the frameo app for iOS or Android Find the frameo app on: Google play by searching for “frameo” or scan this QR code Find the frameo app on: App Store by searching for frameo or scan this QR code ENG-3	Frameo quick setup When starting your frame for the first time, you will need to setup the frame. - First you start by selecting a language. This will be the language used throughout frameo. - Connect your frame to the internet by connecting it to a Wi-Fi. <i>If a newer version of the frameo software is available, then you will be prompted with an update dialog. It is recommended to update your frame immediately if prompted.</i> - Enter your name, and the location where you have placed your frame e.g. “Living room”, “Kitchen” or “Office” and finally set the timezone if not correct. Start using frameo Start by connecting with your friends and family by providing them with a unique code from your frame. If you want to be able to send photos to the frame yourself, start by downloading the app for iOS or Android on App Store or Google Play. Then use the code to connect your frame and app as described below. Connecting a new friend: - Make sure that your friend has downloaded and installed the frameo app - Click the add friend icon on your frame . A dialog will appear showing a unique code which is valid for 12 hours. - Now share this code in whatever fashion you prefer e.g. SMS, E-Mail, IM, phone call, to your friend. - Once your friends have added the code in their frameo app, they will automatically appear on your frame and be able to send you photos. ENG-4	FCC Statement Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment. This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures: -- Reorient or relocate the receiving antenna. -- Increase the separation between the equipment and receiver. -- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected. -- Consult the dealer or an experienced radio/TV technician for help This device complies with part 15 of the FCC rules. Operation is subject to the following two conditions (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation. This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator & your body. ENG-9
