## FAQ

**Q: Why can't the base station connect to the Internet?**

**A:** Please check if the router is working properly, and if the network cable is properly connecting the base station and the router.

**Q: How to reset the base station?**

**A:** Please press and hold the reset button of the base station for more than 8 seconds, then release the button. Once the indicator light starts to flash, the base station will be reset successfully.

**Q: Why can't the wireless scanning detect the device when adding the base station?**

**A:** Please reset the base station and then re-attempt to add it.

**Q: Why does adding the base station via wireless relay always fail?**

**A:** Please make sure that the WiFi password is correct.

## FCC Warning Statement

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules.

These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Important: Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

RF Exposure Statement

To maintain compliance with FCC's RF Exposure guidelines, This equipment should be installed and operated with minimum distance of 20cm the radiator your body. This device and its antenna(s) must not be co-located or operation in conjunction with any other antenna or transmitter.
