Product Specifications

Speaker: Ø 53mm
Impedance: 64±15Ω
Sensitivity: 115.3dB
Frequency response: 20Hz to 20kHz
Microphone: Ø 10.2mm
Microphone sensitivity: -42±3dB
Wireless distance: 10m
Type-C 2.4Ghz/Wireless Type-C Audio Cable
Lithium battery: 750mAh
Charging time: about 3hr
Charging method: (Type-C) USB 5V
Low battery: 2560
Size: 92*185*95mm
Product weight: 285g

Operation Guide

Wired Mode (Type-C Audio Cable)

- Plug in the Type-C cable, and long press the power switch to turn on the headset. At this time, the indicator will flash red. **Enter in Wireless mode, plugging in the Type-C cable will automatically switch to wired mode. In 2.4G mode, plugging in the Type-C cable can directly switch to wired mode. And after unplugging the cable, it will automatically switch to 2.4G mode.**
- Short/Long press the volume +/- for volume adjustment. Double click volume +/- for up/down song adjustment.
- The microphone is turned on by default. To turn off the microphone, press the microphone key once (voice prompt is "microphone off"). To turn on the microphone, press the microphone key again (voice prompt is "microphone on").

2.4G Mode

1. How to Match

- Turn off the headphones and remove the transmitter.
- Press the power button to turn on the headphones, and the indicator lights up and flashes slowly. Then click the Mode button to switch to "Scanning Mode".
- Turn on the 2.4G receiver (plug the receiver into PC, PS4 or other devices).
- After the pairing is successful, you can hear the Gaming Mode voice prompt. (Normally, the headphones are already paired before use.)
- The headphones and receiver are automatically paired and the indicator lights up. (For headphone that have el ready been paired).

2. Operation Instructions

- Connect the receiver to PC/PS4 or other devices, the indicator lights up and flashes.
- Turn on the headphones, it will automatically pair to the transmitter. The indicator will be always on after the pairing is successful, and the indicator will flash when the pairing fails. **After the pairing fails, press and hold the microphone button for 3 seconds to enter pairing state.**
- Short/Long press the volume +/- for volume adjustment. Double click volume +/- for up/down song adjustment.
- The microphone is turned on by default. To turn off the microphone, press the microphone key once (voice prompt is "microphone off").
- Low Power Mode: When the battery power supply voltage is less than 3.30V, the headphones will beep one time every one minute.
- Power Off Mode: When the battery power supply voltage is less than 3.25V, or when there is no sound source connection within 10 minutes, the headset will turn off.

(2) L'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement.

(2) The device meets the exemption from the routine evaluation limits in issue / numéro 6 de RSS-102 and compliance with RSS-102 IF exposure, users can obtain Canadian information on RF exposure and compliance.
Le dispositif rencontre l'exemption des limites courantes d'évaluation dans le numéro 6 de RSS-102 et est conforme à l'exposition de RSS-102 r, utilisateurs peut obtenir l'information canadienne sur l'exposition et la conformité de r.

FCC Warning:
changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:
(1) This device may not cause harmful interference, and
(2) This device must accept any interference received, including interference that may cause undesired operation.
Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy, and if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
-Reorient or relocate the receiving antenna.
-Increase the separation between the equipment and receiver.
-Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
-Consult the dealer or an experienced radio/TV technician for help.
