Subject: FCC Single-Modular Approval Letter
FCC ID: 2AWGH-M7B-Q95-B

To whom it may concern

We, ubisys technologies GmbH, hereby declare that the product, FCC ID: 2AWGH-M7B-Q95-B, has met the single-modular approval requirements of FCC rule part §15.212(a)(1) and this is shown in the table below.

Requirement	Compliance: Yes or No along with a justification
The radio elements must have the radio frequency circuitry shielded. Physical components and tuning capacitor(s) may be located external to the shield, but must be on the module assembly	Yes Bottom ground shielding provided by PCB trace layer as per exhibit. Details in LayerStack.pdf file
The module must have buffered modulation/data inputs to ensure that the device will comply with Part 15 requirements with any type of input signal	Yes
The module must contain power supply regulation on the module	Yes
The module must contain a permanently attached antenna, or contain a unique antenna connector, and be marketed and operated only with specific antenna(s), per Sections 15.203, 15.204(b), 15.204(c), 15.212(a), 2.929(b)	Yes
The module must demonstrate compliance in a stand-alone configuration	Yes

The module must be labelled with its permanently affixed FCC ID label, or use an electronic display (See KDB Publication 784748 about labelling requirements)	Yes
The module must comply with all specific rules applicable to the transmitter including all the conditions provided in the integration instructions by the grantee	Yes
The module must comply with RF exposure requirements	Yes
