

MSG AUTOMOTIVE SOLUTIONS LIMITED

To: Federal Communications Commission
Authorization and Evaluation Division
1435 Oakland Mills Road
Columbia, MD 21046

Regarding: File for a new FCC ID for the entire host including the certified module.

To Whom It May Concern,

We, **MSG AUTOMOTIVE SOLUTIONS LIMITED**, declare on our role responsibility for the product of model VT5500-G-LTE, FCC ID: 2AWHE-VT5500-G-LTE

According to KDB 996369 D02 A1, "it is permissible to upload relevant test reports from an original module filing, if they accurately represent test results under the new conditions described in the new application(s). When original results are used, the new applicant must provide a statement and explanations that the original test reports accurately represent test results under the new conditions."

The certified module ID is FCC ID: XMR201808EC25AF, and the test report numbers are R1806A0301-R1V1/ R1806A0301-R2V1/ R1806A0301-R3V1/ R1806A0301-R4V1/ R1806A0301-M1V3.
This certified module will be integrated into a host that is installed in a car. Therefore, it is the same mobile condition as the original filing.

In this case, this certified module is same as the original filling. Additional test reports will be provided to demonstrate full compliance, we will verified the power first and test for new radiated emission/exposure evaluation.

Sincerely,
