Component assembly 【Air outlet】

Step 1:
Connect the air outlet clamp accessories to this product, first put the rolling ball into the nut ball inserted into the back of equipment

Step 2:
Tighten the nut clockwise

Step 3:
Close the clamp switch to open the clamp, insert the air blade at the air outlet, and clamp the front edge of the air blade

Component assembly 【Dashboard】

Step 1:
Connect the instrument panel accessories to this product, the ball connection method refers to the air outlet style

Step 2:
Fit the accessory base in a suitable position on the instrument panel, press the vacuum switch to fix the device

Step 3:
Turn on the support arm switch, stretch the support arm to adjust the height of the support rod

Step 4:
Press the round card position switch, the support rod can swing 180 degrees back and forth to adjust the visual angle

Instructions

1. Use the Type-C charging line in the package to connect the bracket with the car charging

2. Press the side clamp arm tension switch to open the clamp arm

3. Insert the mobile phone for use. The mobile phone model supporting wireless charging will automatically sense the charging, and the device will automatically clamp the back three axes of the mobile phone when sensing the charging

4. Take out the mobile phone, press the side clamp arm tension switch to open the clamping arm and pull out the mobile phone

Parameters

Model: JZYR00M
Model: JZYR00M
Material: ABS+PC
Input: 5V/2A
Output: 5V/1.5A/5V/2A/5V/3A
Charging distance: ≤8MM
Input interface: Type-C
Applicable mobile phone size: 47-68 mm mobile phone
Applicable sensors: air outlet, instrument panel

Status indicator

State	Display
When connected to power	Blue light
When wireless charging	Blue light flashes slowly
When abnormal object detected	Blue light flashes quickly

Warning

- Do not dismantle or modify the product.
- Do not store product in wet conditions.
- Do not keep or use the product near heat sources.
- Do not let water or any other liquid flow into the inside part of the product, otherwise the product will be damaged.
- Do not install the wireless car charger over air bag cover or within the air bag deployment area.
- Make sure to remove metallic, magnetic protective case or clip onto the back contacts from your device when charging.
- Wireless charger may heat up. This is normal and should not affect charging performance of the charger. Feel hot to the touch during this charging procedure for the device from the charger and allow it to cool down before restarting the charging process.
- Avoid using bent or damaged USB cable.

电动
大翻板

充电

三轴联动

无线充电感应区域

手机侧面感应臂

出风口开关

夹臂离合开关

Type-C输入端口

底座

安装步骤 (出风口款)

步骤一:
把出风口夹子和底座安装到本产品，先把球球放入翻板的内孔，球球没有安装好

步骤二:
把球球放入底座内孔，球球没有安装好

步骤三:
打开夹臂离合开关，球球没有安装好

安装步骤 (仪表台款)

步骤一:
把球球放入底座内孔，球球没有安装好

步骤二:
把球球放入底座内孔，球球没有安装好

步骤三:
打开夹臂离合开关，球球没有安装好

使用说明

1. 使用出风口款Type-C充电线连接支架与手机

2. 按下侧夹臂离合开关夹紧手机

3. 插入手机使用，支架系统感应手机型号会自动感应充电，设备感应到手机后会自动充电

4. 取出手机，按下侧夹臂离合开关夹紧手机，取出手机

产品参数

品牌: JZYR00M
型号: JZYR00M
材料: ABS+PC
输入: 5V/2A

FCC Requirement

changes or modifications not expressly approved by the party responsible for compliance could void the user' s authority to operate the equipment.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) this device may not cause harmful interference, and
- (2) this device must accept any interference received, including interference that may cause undesired operation.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy, and if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

FCC 20cm Statement

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with a minimum distance of 20cm between the radiator & your body. This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.
