What you need to get started: • Stable WiFi network which could access to Amazon server. • An Echo device, including Echo, Echo Tap, or Echo Dot. • An Amazon account. • Smart Life app and a related account. (Please refer to the user manual). • Smart devices. 2. Link Smart Life account to Alexa	2.1 Tap "Add" in the menu, then search "Smart Life" and tap "ENABLE" to enable the link. 	2.2 You will be redirected to the account link page. Type in your Smart Life account and password, don't forget to select the country/region where your account belongs to. Then tap "Link Now" to link your Smart Life account. The country/region, account, and password must be the same with your registry. 	3. Control your smart devices through Echo 3.1 Discover devices Echo needs to discover your smart devices before it controls them. You can say "Alexa, discover device" to Echo. Echo will discover devices which have already been added in the Smart Life app. You can also tap "DISCOVER" to discover the smart devices. Discovered devices will be shown in the list. 
3.2 Control devices by voice commands. Now you can control your smart devices through Echo. You can use the following commands to control your devices (e.g.: bedroom light): Support: Smart Life Use to control devices by instructions by below: • Alexa, turn on bedroom light • Alexa, turn off bedroom light Note: The name of the device must be consistent with the addition of SmartLife app. Quick Guide of Using Google Home to Control Smart Devices 1. What you need to get started: • A Google Home device, or Android phone with Google Assistant. • Latest Google Home app. • Latest Google app (Android only). • A Google account. • The device display language must be set to English US. • Smart Life app and a related account. • Smart devices. 2. Link Smart Life account in Google Home Control	2.1 Tap "Home Control" in the menu on the Google Home app's home page, then tap "+". 	2.2 Find "Smart Life" in the list. In the new window, select your Smart Life account's region, type your Smart Life account and password, then tap "Link Now". After you assign rooms for devices, your devices will be listed in the Home Control page. 	Note: The equipment has been tested and found to comply with the limits for a class B digital device, pursuant to part 15 of the FCC rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications; however, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, please try the following tips: • Reorient or relocate the receiving antenna. • Increase the separation between the equipment and receiver. • Connect the equipment into an outlet on a circuit different from that to which the receiver is connected. • Consult the dealer or an experienced radio/TV technician for help. FCC Statement This device complies with part 15 of the FCC Rules.
