Permanent Outdoor Lights User Guide

Before installation, let's know how the whole thing works.

Step 1: Install the string light

Step2: Fundamental Set Up- Connect smart string light to 'Smart Life' App.

Step 3 & 4: Optional Set Up – Connect 'Smart Life' app to Alexa or Google Assistant.

After completing Step Two, you can remote control the light on Smart Life App.

After completing Step Three and Four, you can voice control the light with Alexa or Google Assistant. This manual consists of Four parts.

Part One - How to install the light ?	3 - 9
Part Two - How to pair the light to Smart Life app?	10 - 13
Part Three - How to control the light with Amazon Alexa?	14 - 16
Part Four - How to control the light with Google Assistant?	17 - 18

Part One - How to install the light?

Warning

- (1) Please check if the light and the parts are intact before installation.
- (2) Make sure to cut off power before installation.
- (3) Please do not place this light in corrosive conditions.
- (4) If there is any damage to the cord, please cut off the power and stop using it immediately.
- (5) Please do not retrofit the light within the warranty period.

1. Product Information

Frequency	50/60 Hz	50/60 Hz	50/60 Hz
Power Adapter	24V $\Rightarrow$ 1A	24V $\Rightarrow$ 1.75A	24V $\Rightarrow$ 3A
Wattage	21W	39W	60W
Number of Lights	40	80	80
Color	RGB Rainbow	RGB Rainbow	RGB Rainbow
Luminous Flux	200lm	400lm	600lm
Protection Rating	IP65	IP65	IP65
Ta	40°C	40°C	40°C
Battery (for Remote)	AAA*2	AAA*2	AAA*2

2. Components

Package List

String Light	1 PC
Power Adapter	1 PC
Remote Controller	1 PC
User Manual	1 PC
Installation Bracket	40/80 PCS

3. Dimension

Note:

1. The string light cannot be extended. Please do not cut the cable.
2. Use this product with the provided power adapter only.
3. The power plug cannot be directly used outdoor. Please connect to a indoor socket, or use a waterproof box.

4. Installation

Step 1: Connect the string lights and power adapter.

(If not smooth when plug in , please adjust the angle to make sure the plug and jack match exactly as the picture below)

Step 2: Firmly screw the waterproof bolt.

Step 3: Plug and play (AC 100-240V).

Warning: Plug the string lights into the socket after installation is completed.

5. Remote controller

You can control the lights by the remote controller once powered on.

If the lights flash in red light, it's pairing mode. You can pair the Smart Life app with your lights or wait around 3 minutes until the pairing mode fade away.

Battery for remote: AAA*2 (Not Included)

Wireless Control Specification:

Wireless Frequency Range: 2.412-2.462GHz(2.4GWiFi)

Wireless Frequency Range: 2.402-2.480GHz(Bluetooth LE)

FCC ID: 2AWON-NVS-WF01 (WiFi Receiver)

FCC ID: 2AWON-NVS-RF01 (Remote Controller)

Federal Communication Commission(FCC)Statement for Users Warning:

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This device complies with part 15 of the FCC Rules.

Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
- (2) this device must accept any interference received, including interference that may cause undesired operation.

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules.

These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

RF Exposure Information

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator and your body.

Important notes before starting:

- Please make sure the WiFi signal is strong enough. The WiFi signal receiving module is built into the LED WiFi controller. The distance between the LED WiFi controller and your WiFi router should be less than 65ft/20m.

- Before pairing, please turn on the Bluetooth and WiFi on your phone.
- It supports 2.4GHz WiFi network only. If your WiFi router supports both 2.4GHz and 5.0GHz, please separate the two frequency bands in the router settings and select the 2.4GHz.

Part Two - How to pair the light to Smart Life app?

Step A: Smart Life app installation.

Please choose either way below to download and install the app.

(1) As per your phone system, choose the QR code to scan.

iOS

Android

(2) Search keyword 'Smart Life' in App Store or Google Play.

Step B: Create an account on Smart Life and login.

Note: Please keep your account and password in mind for Alexa or Google Assistant App pairing later.

Step C: Set the strip light to 'pairing mode' by the following ways.

Method 1: After powering the strip light, LONGPRESS the “ pairing ()” button for 5 seconds on the remote controller, the strip light will enter 'pairing mode' and blink.

Method 2: Power it on and off by plugging and unplugging the power adapter. Please repeat 3 times, and the light could be in pairing mode and blink.

Step D: Turn on the WLAN(2.4GHz WiFi), Bluetooth and Airdrop or Location function on your mobile phone.

(Note: not compatible with 5Ghz WiFi)

Step E: Open the 'Smart Life' app & complete the device adding process step by step.

Step F: Now you can control the strip light by 'Smart Life' app.

Main Interface

Power ON/OFF
Timer
Schedule

Scene Mode

15 scenes mode switching
by tap

Custom Mode

Up to 8 custom scenes can be saved.

The color, mode and brightness of each bulb can be set individually.

Tap "Preview" to preview the current effect.

Tap "+ Save Scene", go back to the "Scene Mode" module and you will find "Customize" at the top of the interface.

Music Mode

Randomly switch colors according to the rhythm of the music.

Timer / Schedule

Part Three — How to control the light with Amazon Alexa?

Please make sure that your Alexa app is connected to Echo, and both work well under your WiFi network.

Step A: Log in your Alexa App, tap top left corner, and tap 'Skills'.

Your Alexa settings have been updated

Household Drop In was enabled from one of your Echo devices or from the Alexa app. The opt-in Drop In feature lets you automatically connect to an Echo device for a voice or a video chat. Your Echo devices with a screen and the Alexa app will indicate which of

Step B: Type 'Smart Life', find 'Smart Life' from the search result and tap it to enable the skill.

Step C: Enter your Smart Life App account and password. Tap 'Link Now', then tap 'Authorize' on the next page to bind Smart Life account to Alexa.

Step D: When your Smart Life account is bound to Alexa, tap 'DISCOVER DEVICES' to detect the light.

Step C

The screenshot shows the 'Amazon Alexa' app interface. At the top, there's a header with 'Amazon Alexa' and a close button. Below it, a status bar shows 'Done', a lock icon, the URL 'px1.tuya.us.com', and a refresh icon. The main content area features a blue house icon at the top. Below it, there's a dashed blue box containing the 'Account' section with a dropdown menu showing '+1' and a field for 'Phone Number/Email Address'. Below that is the 'Password' section with a field labeled 'Type your password here' and an eye icon. A blue line points from this password field to a text box at the bottom. Below the dashed box is a large grey button labeled 'Link Now' with a hand icon pointing to it. At the bottom of the dashed box are links for 'Forgot Password' and 'SMS Login'. Below the 'Link Now' button is a section for 'Sign in with social media account' featuring a Twitter icon. At the very bottom, there are navigation icons: back, forward, share, and a clock.

Same account and password as Smart Life App

Step D

The screenshot shows the 'Smart Life' app interface. At the top, there's a header with a back arrow, the 'Smart Life' title, and a share icon. Below it, there's a profile section with a house icon, the 'Smart Life' title, 'tuya technology', and a rating of 'Rated: Guidance Suggested' with 377 reviews. Below this is a 'Discover Devices' dialog box with a close button. The dialog contains the text: 'Smart Home devices must be discovered before they can be used with Alexa.' At the bottom of the dialog are two buttons: 'CANCEL' and 'DISCOVER DEVICES'. Below the dialog, there's a section for 'ABOUT THIS SKILL' with contact information: 'If you have any problems, please contact us at feedback@ismartlife.me'. At the bottom, there's a navigation bar with icons for home, chat, and a list.

Step E: When the named light is paired to Alexa from Smart Life, it will show on the device page (see the 'smart light' example).

Step F: Now you can control the light with Alexa App on the setting page. To turn on or off the light, simply tap the bulb icon.

Step G: You can also voice control the light with Alexa by giving these commands: “Alexa, turn on ‘device name’”, “Alexa, set ‘device name’ to ‘color’”, “Alexa, set ‘device name’ to ‘number’”. Device name is the one you give to the light. The light is named ‘smart light’ in this user guide. For example, “Alexa, turn on ‘smart light’”, “Alexa, set ‘smart light’ to ‘blue’” etc.

Step F

Step G

Note: To control the light with Google Assistant, please continue to read Part Four.

Part Four — How to control the light with Google Assistant?

Step A: Login Google Assistant App, tap 'Home Control' on the left side bar page.

Step B: Tap '+' button on the bottom right to enter next page.

Step C: Find 'Smart Life' from side bar list.

Step D: Enter your Smart Life App account and password to bind Smart Life account to Google Assistant.

Step E: You will find the named light shows on the Home Control page. Now you can control the light on Google Assistant App, or voice control it by giving these commands: “ok Google, turn on ‘device name’”, “ ok Google, set ‘device name’ ‘to color’”, “ ok Google, set ‘device name’ to ‘number’”.

Device name is the one you give to the light. The light is named ‘smart light’ in this user guide. For example, “ok Google, turn on ‘smart light’”, “ok Google, set ‘smart light’ to ‘blue’” etc.

Step D

Same account and password
as Smart Life App

Step E
