

| ANTENNA SPECIFICATION |                                                                                         |
|-----------------------|-----------------------------------------------------------------------------------------|
| SUMMARY               |                                                                                         |
| ITEM:                 | 303.875 MHZ Antenna report                                                              |
| Model Name:           | RCB-TS2A                                                                                |
| Antenna Gain:         | -0.5 db                                                                                 |
| Polarization:         | Horizontal and Vertical                                                                 |
| Azimuth BeamPattern:  | Omni-directional                                                                        |
| Impedance:            | 50 Ohm                                                                                  |
| Manufacture:          | Sunwell Technology Company Limited                                                      |
| ManufactureAddress:   | Bld 2.Unit 2.Floor 4. Jinlong Mingyuan,Nanlian Community,Longgang Street,Shenzhen.China |
| Antenna Photo         |                                                                                         |
