Product Overview

Ear Fin Fitting

Specifications:

- BT version: 5.0
- Profiles supported: HSP, HFP, A2DP, AVRCP
- Operational range: up to 10 meters, Class II
- Charge voltage: DC 5V / 0.5-2A
- Charging time: About 2.5 hours
- Play time: up to 20 hours
- Headphone size: 27*14*35mm
- Net weight: 28.5g

Basic Operations

Function	Operation
General	
Power ON / OFF	Hold  for about 3s
ENTER PAIRING MODE	From off status, hold  for about 5s until LED flashes BLUE and RED alternately
Music control	
Play / Pause music	Press  once
Volume up / down	Short press  or 
Next / Previous track	Long press  or 
Call control	
Answer / end a call	Press  once
Reject a call	Long press  for 1s
Voice dial (Phone feature)	Press  and  simultaneously

LED indication

Headphones Status	Indicator Light
Low battery	Red LED blinking
Charging	Red solid
Ready to pair	Blue and red flash alternately
Connected	Blue flashes twice every 5 seconds
NOT connected	Blue flashes once every 5 seconds

Pair and connect

- 1) Set headset to PAIRING MODE - From off status, hold  for about 5 seconds until LED flashes BLUE and RED alternately. (Note: For first time use, it will enter pairing mode automatically after power on.)
- 2) Activate Bluetooth on your device, search and select "Avantree NB16" to connect. Once connected, LED will flash BLUE twice every 5s, you will hear a voice prompt "Your device is connected".

Reconnect

Normally, when turning headset on, it will automatically reconnect to the last paired device. Otherwise, please connect it on the phone manually.

To add another device

- 1) Turn off the Bluetooth of first device.
- 2) Repeat steps in Part 2 to add the second device.
- 3) Turn on the Bluetooth of first device, it will automatically reconnect. Otherwise, please connect it on the phone manually.

Note:

It is only work for two mobile devices, such as mobile phones and tablets, not for PC and Bluetooth transmitter.

Charging

When the LED flashes red every 10s and you hear a voice prompt "low battery", you should fully recharge the device for about 2 hours. The LED will remain red while charging and turn off when charging is complete.

You can plug it into a USB wall charger (DC 5V / 0.5-2A) or computer USB port that is powered on.

Clear the headphones pairing history

Make sure NB16 is powered on, Press and hold  and  together for about 5s, until LED lights on blue and red simultaneously for about 2s (beeps pink), it will work off thereafter.

Troubleshooting

- **No sound with PC?**
 - Set Avantree NB16 as the default device or output device on the PC.
 - When using NB16 to make VOIP calls through apps, please set NB16 Hands-Free as Microphone and Speakers device.
- **No sound with Bluetooth transmitter to watching TV?**
 - Check audio source is properly
 - AUX & RCA output on TV - tested by wired headphones
 - OPT output on TV - Set audio format to "PCM/LPCM" or turn off Dolby/DTS
 - Change your TV audio out setting to External speakers / Headset.
 - Ensure Bluetooth transmitter and headphones are connected properly.
- **Headphones do not pair with Bluetooth device**
 - Ensure NB16 is in Pairing mode correctly - LED will flash BLUE and RED alternately.
 - For Bluetooth transmitter, please ensure the transmitter is in Pairing mode - refer to its user manual.
 - For Smart phone, tablet and PC
 - Turn the Bluetooth feature off and then on.
 - Delete your Avantree NB16 headphones from the Bluetooth list on your device. Try to pair it again.
 - Clear the headphones pairing history

Bedienung	
Funktion	Bedienung
Allgemein	
Strom AN / AUS	 3 Sekunden lang halten
PAARUNGSMODUS	Halten Sie  im ausgeschalteten Zustand ungefähr 5 Sekunden lang gedrückt, bis die LED-Anzeige abwechselnd BLAU und ROT aufleuchtet.
Musiksteuerung	
Musik spielen/ anhören	 einmal drücken
Laustärke hoch/ runter	Kurz  oder  drücken
Laustärke hoch/ runter	Länger  oder  drücken
Anrufsteuerung	
Anruf annehmen/ enden	 einmal drücken
Anruf ablehnen	 1 Sekunde lang drücken
Sprache(n) (Hörsp.-Funktion)	 und  gleichzeitig drücken
LED-Anzeigen	
Kopföhre-Status	Anzeige/Leucht
Niedriger Akkubatteriestatus	Die rote LED-Leuchte blinkt
Ladungsvorgang	Durchgehend rot
Bereit zur Paarung	Abwechselnd blau und rot aufleuchtend
Verbunden	Blinkt alle 5 Sekunden zweimal BLAU auf
Nicht verbunden	Blinkt alle 5 Sekunden einmal BLAU auf
Paaren und verbinden	
1) Setzen Sie das Headset in den PAARUNGSMODUS – Halten Sie  im ausgeschalteten Zustand ungefähr 5 Sekunden lang gedrückt, bis die LED-Anzeigen abwechselnd BLAU und ROT aufleuchten. (Hinweis: Bei der ersten Verwendung geht das Gerät nach dem Einschalten automatisch in den Paarungsmodus.) 2) Wählen Sie das Bluetooth-Funktion auf Ihrem Gerät aus und suchen und wählen Sie „Avantree NB16“, um eine Verbindung herzustellen. Sobald die Verbindung besteht, leuchtet die LED-Anzeige alle 5 Sekunden zwei Mal BLAU auf, und Sie hören die Sprachansage „Ihr Gerät ist verbunden“.	
Erneute Verbindung	
Wenn Sie das Headset einschalten, verbindet es sich normalerweise automatisch mit dem zuletzt getragenen Gerät. Falls nicht, stellen Sie eine manuelle Verbindung über Ihr Handy her.	
Ein weiteres Gerät hinzufügen	
1) Schalten Sie die Bluetooth-Funktion am dem ersten Gerät aus. 2) Wiederholen Sie die Schritte in Teil 2 für das zweite Gerät. 3) Schalten Sie die Bluetooth-Funktion auf dem ersten Gerät ein, dieses verbindet sich automatisch. Falls nicht, stellen Sie eine manuelle Verbindung über Ihr Handy her.	
Hinweis: das funktioniert nur bei zwei mobile Geräten, so zum Beispiel bei Handys oder Tablets, und nicht bei PCs oder Bluetooth-Transmittern.	
Ladungsvorgang	
Wenn die LED-Anzeigen alle 10s rot aufleuchten und Sie die Sprachansage „niedriger Akku“ hören, sollten Sie das Gerät über einen Zeitraum von ungefähr 2 Stunden wieder vollständig aufladen. Die LED-Anzeige blinkt während des Ladungsvorgangs rot und geht aus, sobald der Ladungsvorgang beendet ist. Wenn das Gerät einen USB-Wandladungsblock (DC 5V/ 0.5-2A) oder einen eingeschalteten USB-Computerschlüssel anschließen.	
Löschen Sie die Paarungshistorie auf den Kopfhörern	
Stellen Sie sicher, dass der NB16 eingeschaltet ist. Halten Sie  und  ungefähr 5 Sekunden lang gleichzeitig gedrückt, bis die LED-Anzeige 2 Sekunden lang gleichzeitig blau und rot aufleuchtet (siehe rechts aus). Danach schaltet sich das Gerät aus.	
Troubleshooting	
• Kein Ton über PC? - Richten Sie Avantree NB16 als Standardgerät oder Output-Gerät auf Ihrem PC ein. - Wenn Sie NB16 nutzen, um VOP-Anrufer über Apps zu machen, wählen Sie NB16-Hands-Free als Mikrofon und Lautsprecher.	
• Kein Ton mit Bluetooth Transmitter beim Fernsehen? - Überprüfen Sie die Tonquelle - AUX & RCA Output am TV – mit verkapten Kopfhörer testen - OPT Output am TV – Tonformat als „PCM/LPCM“ einstellen oder Dolby / DTS ausschalten - Ändern Sie die TV-Toneinstellung auf externe Lautsprecher / Headset. - Stellen Sie sicher, dass der Bluetooth-Transmitter und die Kopfhörer richtig verbunden sind.	
• Die Kopfhörer lassen sich nicht mit dem Bluetooth-Gerät paaren - Stellen Sie sicher, dass der NB16 im Paarungsmodus ist – im ausgeschalteten Zustand  gedrückt halten - Stellen Sie beim Bluetooth-Transmitter sicher, dass der Transmitter im Paarungsmodus ist - Lesen Sie die Bedienungsanleitung. - Schalten Sie die Bluetooth-Funktion aus und wieder ein. - Löschen Sie die Avantree NB16 Kopfhörer von der Bluetooth-Liste auf Ihrem Gerät. Versuchen Sie, die Geräte erneut zu paaren. - Löschen Sie die Paarungshistorie auf den Kopfhörern	

Fonctions de base	
Fonctions	Opérations
Général	
Marche/Arrêt(ON/OFF)	Maintenir  durant 3s environ
Mise en APPAIRAGE	Appairé éteint, maintenir  durant 5s environ jusqu'au clignotement alternatif LED BLEU et ROUGE
Musique	
Lecture / Pause	Appuyer  1 fois
Volume +	Appui court sur  ou 
Piste suivante/précédente	Appui long sur  ou 
Appels	
Appels	Appuyer  1 fois
Rejet d'un appel	Long Appuyer  pour 1s
Composition vocale (Fonctionnalité dépendante du téléphone)	Appui long sur  et  en simultané
Indications LED	
Statut du casque	Indicator Light
Batterie faible	Batterie faible
En charge	LED ROUGE fixe
Prêt pour appairage	Clignotement BLEU et ROUGE alternatif
Connecté	Flash BLEU 2 fois toutes les 5 secondes
NON connecté	Flash BLEU 1 fois toutes les 5 secondes
Appairage et connexion	
1) Mise en MODE APPAIRAGE du casque - Appairé éteint, maintenir  durant 5s environ jusqu'au clignotement alternatif LED BLEU et ROUGE. (Note : à la future utilisation, le casque entrera directement en appairage dès sa mise en marche.)	
2) Activez le Bluetooth sur votre smartphone par ex, cherchez et sélectionnez "Avantree NB16" afin de les connecter. Une fois connectés, la LED clignote BLEU/2 fois toutes les 5s et vous entendrez une voix "Your device is connected".	
Reconnexion	
Normalement, lorsque vous activez le casque, il se reconnecte automatiquement au dernier appareil couplé. Dans le cas contraire, veuillez le connecter manuellement au téléphone.	
Ajust d'un autre équipement	
1) Réglez le Bluetooth du premier appareil. 2) Répétez les étapes de la partie 2 pour ajouter le second appareil 3) Allumez le Bluetooth du premier appareil, il se reconnectera automatiquement. Dans ce cas contraire, veuillez le connecter manuellement au téléphone.	
Note: Cela ne fonctionne que pour deux appareils mobiles (téléphones et tablettes), pas sur des transmetteurs PC et Bluetooth .	
Recharge	
Lorsque la LED cligne en rouge toutes les 10 secondes et que vous entendez l'invite vocale "low battery", vous devez charger complètement l'appareil pendant environ 2 heures. La LED restera rouge pendant la charge et s'éteindra lorsque la charge sera terminée.	
Vous pouvez le brancher dans un chargeur mural USB (DC 5V / 0.5-2A) ou un port USB d'ordinateur (allumé).	
Efficace l'association de écouteurs	
Assurez-vous que NB16 est sous tension, Appuyer et maintenir  et EN même temps, durant environ 5s, jusqu'à ce que la LED s'allume en rouge. Ensuite, le Bluetooth simuleraient durant environ 2 secondes (similaire au cas). Ceci fait, les écouteurs seront éteints à nouveau.	
Questions / Réponses et dépannage	
- Aucun son via transmetteur Bluetooth sur PC? - Définir l'Avantree NB16 comme périphérique de sortie par défaut sur votre PC. - Si vous utilisez le NB16 pour les appels via VOIP via des applications tierces, veuillez définir le NB16 en tant que micro et haut-parleurs.	
- Aucun son via transmetteur Bluetooth branché à votre TV? - Vérifiez la source audio de votre TV. - Sortie AUDIO & RCA -> tester via des écouteurs filaires. - Sortie OPTIQUE/USB -> tester via le format audio numérique est bien sur PCM/DPCM ou désactivez le Dolby/DTS. - Changez la sortie TV audio vers Centrales externes / Casque. - Assurez-vous que l'émetteur Bluetooth et les écouteurs sont correctement connectés.	
- Aucun appairage possible avec un équipement Bluetooth - Assurez-vous que NB16 est bien en appairage - la LED clignote BLEU et ROUGE alternativement. - Pour l'émetteur Bluetooth, assurez-vous qu'il soit aussi en appairage - se référer à son manuel d'utilisation. - Pour un smartphone, tablette ou PC - Désactivez et réactivez la fonction Bluetooth. - Supprimez vos écouteurs Avantree NB16 de la liste des équipements Bluetooth connus sur votre appareil. Testez de nouveau.	
- Efficace l'association de écouteurs	

Operazioni base	
Funzione	Operazione
Generale	
Accensione/Spegnimento	Tenere premuto  per circa 3 secondi
AVVIO MODALITÀ ACCOPPIAMENTO	Da spento, tenere premuto  per circa 5 secondi; fino a quando il LED non lampeggia in BLU e ROSSO in modo alternato
Controllo della musica	
Play / Pausa musica	Premere una volta 
Aumentare/Diminuzione volume	Premere brevemente  o 
Traccia precedente/successiva	Premere a lungo  o 
Controllo delle chiamate	
Rispondere/ Terminare una chiamata	Premere una volta 
Infondere una chiamata	Premere  per 1 secondo
Chiamata vocale (Caratteristica del telefono)	Premere  e  simultaneamente
Indicatori LED	
Stato cuffia	LED Indicatore
Batteria bassa	Luce lampeggia in ROSSO
Ricarica	Rosso fisso
Pronto per accoppiamento	Blu e rosso lampeggiano in modo alternato
Connesso	Lampeggia in BLU due volte ogni 5 secondi
NON connesso	Lampeggia in BLU ogni 5 secondi
Accoppiare e connettere	
1) Portare la cuffia in modalità ACCOPPIAMENTO – Da spento, tenere premuto  per circa 5 secondi; fino a quando il LED non lampeggia in BLU e ROSSO in modo alternato. (Nota: Al primo utilizzo, entrerà automaticamente in modalità accoppiamento una volta acceso). 2) Attiva il Bluetooth sul tuo dispositivo, cerca e seleziona "Avantree N16" per connetterti. Una volta connesso, il LED lampeggerà in BLU due volte ogni 5 secondi, si udirà il comando vocale "Il tuo dispositivo è connesso".	
Riconnessione	
Soltanto, quando si accendono le cuffie, queste si riconnettono automaticamente all'ultimo dispositivo accoppiato. Se ciò non avviene, connettere il telefono manualmente.	
Per aggiungere un altro dispositivo	
1) Spegnere il Bluetooth del primo dispositivo. 2) Premere i passaggi della Parte 2 per aggiungere il secondo dispositivo. 3) Attivare il Bluetooth del primo dispositivo, si riconnetterà automaticamente. Se ciò non avviene, connettere il telefono manualmente.	
Nota: funziona solo con due dispositivi mobili, come cellulari e tablets, non con PC e trasmettitori Bluetooth.	
Ricarica	
Quando il LED lampeggia in ROSSO ogni 10 secondi, e emette il comando vocale "batteria scarica" è necessario ricaricarla completamente il dispositivo per circa due ore. Il LED rimarrà rosso durante la ricarica e si spegnerà una volta completata. È possibile collegarlo a un caricante da muro USB (DC 5V / 0.5-2A o alla porta USB di un computer acceso).	
Cancellazione della cronologia degli accoppiamenti delle cuffie	
Assicurati che N16 sia acceso. Tenere premuto  (2) e contemporaneamente per circa 5 secondi; fino a quando il LED non lampeggia in ROSSO e BLU simultaneamente per circa 2 secondi (senza rosa). Successivamente si spegnerà.	
Risoluzione dei problemi	
• Nessun suono con il PC? • Imposta Avantree N16 come dispositivo predefinito o dispositivi di uscita del PC • Durante l'utilizzo di N16, per effettuare chiamate VOIP • Cambia l'impostazione di N16 in Mani-Libere come Microfono e Durata. • Nessun suono con la trasmettente Bluetooth mentre guardi la TV? • Controlla che la fonte audio sia corretta • Usa AUX & RCA sulla Tv-priva con cuffie collegate via cavo • Controlla OPT sulla TV - Impostare il format audio su "PCM/L CM" o spegnere Dolby/DTS • Cambia l'impostazione di Uscita audio della TV su casse esterne / Uscite. • Assicurati che la trasmettente Bluetooth e le cuffie siano connesse correttamente. • Le cuffie non si accoppiano con il dispositivo Bluetooth • Assicurati che N16 si trovi in modalità accoppiamento – il LED delle cuffie lampeggia il ROSSO e BLU in modo alternato. • Assicurati che il tuo dispositivo Bluetooth, assicurati che la trasmettente sia in Modalità Accoppiamento – fare riferimento al tuo manuale dell'utente. • Smart phone, tablet e PC • Spegnere il Bluetooth e ricaricarlo. • Cancellare le cuffie Avantree N16 dalla lista Bluetooth del tuo dispositivo. Cerca di accoppiarlo nuovamente. • Cancellazione della cronologia degli accoppiamenti delle cuffie	

Funciones básicas	
Función	Procedimiento
General	
ON / OFF	Pulse  durante 3s
ENTRAR EN MODO EMPAREJAMIENTO	Con el dispositivo apagado, pulsar  durante unos 5s hasta que el LED alterne luz AZUL y ROJA
Control de música	
Reproducir / Pausar música	Pulsar  once
Subir/bajar volumen	Pulsar  o 
Lista Siguiente/ Anterior	Mantener pulsados  o 
Control de llamadas	
Responder / finalizar una llamada	Pulsar  una vez
Rechazar una llamada	Pulsar  durante 1s
Marcar de voz (Función del teléfono)	Pulsar  y  simultáneamente
Indicador LED	
Estado de los Auriculares	Luz de Indicación
Batería baja	Luz Rojo parpadea
Recargar	Rozo fuerte
Listo para emparejar	Alterna la luz azul y roja
Conectado	Emite luz AZUL de los veces cada 5 segundos
NO conectado	Emite luz AZUL una vez cada 5 segundos
Emparejar y conectar	
1) Ajustar los auriculares a MODO DE EMPAREJAMIENTO: Con el dispositivo apagado, pulsar  durante unos 5 segundos hasta que el LED alterne luz roja y azul. (Nota: Si lo usa por primera vez, entrará en modo de empareja miento automáticamente después de encenderlo.) 2) Activar el Bluetooth en su dispositivo, buscar y seleccionar "Avantree NB16" para conectar. Una vez conectado, el LED emite luz azul dos veces cada 5s, se escuchará una voz que dice "S su dispositivo está conectado".	
Volver a conectar	
Normalmente al encender el auricular, se volverá a conectar automáticamente al último dispositivo emparejado. Si no es así, por favor conéctelo al dispositivo manualmente.	
Añadir otro dispositivo	
1) Apague el Bluetooth del primer dispositivo. 2) Repita los pasos en el punto 2, para añadir el segundo dispositivo. 3) Encienda el Bluetooth del primer dispositivo, automáticamente se volverá a conectar. De lo contrario, por favor conéctelo al teléfono manualmente.	
Note: solo funciona para dispositivos móviles, como teléfonos móviles y tabletas, no para el transmisor Bluetooth y el PNC.	
Recargar	
Cuando el LED parpadea en rojo cada 10s y se escucha una voz de "batería baja", debe recargar el dispositivo completamente durante unos 2 horas. El LED permanecerá rojo durante la carga y se apagará cuando la carga esté completa. Se puede conectar a un cargador de pared USB (DC 5V / 0.5-2A) o al puerto USB de un ordenador que esté encendido.	
Borrar el historial de emparejamiento de los auriculares	
Asegúrese de que NB16 está encendido. Mantenga pulsados y unos 5s, hasta que las luces del LED alternen Azul y Rojo brillen al mismo tiempo durante aproximadamente 2s (se verá roja). Después se apagará.	
Resolución de problemas	
• ¿No hay sonido en el PC? - Establecer Avantree NB16 como dispositivo predeterminado de reproducción de salida en el PC. - Cuando el NB16 se para hacer llamadas VOIP a través de aplicaciones, configure NB16 manos libres como dispositivo con micrófono y altavoces.	
• ¿No hay sonido con el transmisor Bluetooth para la tv? - Conectar que la fuente de audio sea correcta - Salida AUX & RCA de la TV – comprobada con auriculares con cable. - Salidas OPT de la TV – Configurar el formato de audio a PCM / MCLPCM o Apple Dolby/DTS. - Cambie la configuración del audio de la TV a Altavoces / auriculares. - Asegúrese de que el transmisor Bluetooth y los auriculares están bien conectados.	
• Los auriculares no se emparejan con el dispositivo Bluetooth - Asegúrese de que NB16 esté emparejado correctamente. – E - Eliminar la función NB16 de la lista de dispositivos Bluetooth. - Para poner el transmisor de Bluetooth, por favor asegúrese de que el está en modo de emparejamiento: Consulte su manual de usuario. - Para Smartphones, tabletas y PC: - Asegurar la función Bluetooth al encender su dispositivo. - Eliminar los Auriculares Avantree NB16 de la lista Bluetooth de su dispositivo. Intente sincronizarlo otra vez. - Borrar el historial de emparejamiento de los auriculares
