Operation guide:

- ① Device host 1set
- ② Power cable 1pcs
- ③ WIFI Antenna 1pcs
- ④ Operation manual 1pcs

Product parameters

Product name	Ewi intelligent air guardian
Model	EW-ZNKQWS/EW-E-EIAG/EW-A-EIAG
Air type	AS
Type of cooling	Air patenting
Frequency	2.4GHZ
Product size	197*237*110mm
Power Supply	AC 220V/AC 230V/AC 110V
Rated power	Purification mode: 8W Disinfection mode: 95W
Production of super oxygen	10g/h
Aeroanion concentration	7.3x10^6pcs/cm³
N.W.	2.5KG

Product structure

- ①、Switch & mode Indicator
- ②、WIFI button & status indicator
- ③、Ozone vent
- ④、WIFI antenna
- ⑤、Anion vent
- ⑥、AC power socket

Operation guide

Preparatory work before starting the machine

1、Mounting antenna

2、AC power cable connecting

 FCC Warning Statement

Changes or modifications not expressly approved by the party responsible for compliance could void the user’s authority to operate the equipment. This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- - Reorient or relocate the receiving antenna.
- - Increase the separation between the equipment and receiver.
- - Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- - Consult the dealer or an experienced radio/TV technician for help.

FCC Radiation Exposure Statement

The antennas used for this transmitter must be installed to provide a separation distance of at least 20 cm from all persons and must not be co - located for operating in conjunction with any other antenna or transmitter.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1)This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.
