External Antenna Declaration – FCC-ID: 2AWYU-81170, 2AWYU-81342

Rubicon Global Pty. Ltd. hereby declares that the devices with FCC-ID 2AWYU-81170 and 2AWYU-81342 use a Reverse Polarity SMA (RP-SMA) to ufl loom, to connect to the ufl jack directly on the included radio module. The required LoRa external antenna is supplied with the device by Rubicon Global. The external LoRa antenna has the non-standard reverse-polarity connection to prevent the user from utilising any other antennas not defined by Rubicon Global

Sincerely,

Paul Spooner General Manager Design & Production
