FCC Laboratory  
7435 Oakland Mills Rd  
Columbia MD 21046

SUBJECT: Class II Permissive Change for FCC ID: 2AX2URW220GL, Model: RW220-GL

The product, Cat.1bis Module, has been granted by FCC dated 08/14/2025 under FCC ID: 2AX2URW220GL. The intention of this application is to enable the modular certified FCC ID: 2AX2URW220GL to be integrated in HP Notebook Computer HSN-I67C-4.

The module installed into host platform mentioned above is electronically and mechanically identical to the original certified module. The Original FCC testing on module under FCC ID: 2AX2URW220GL was performed with an antenna of higher gain, and the antenna was connected to the module in an open environment. The current host platform under application uses an antenna with lower gain and is installed inside the host platform enclosure. The physical restraints introduced by the host platform should have resulted in equal or lower level of radiated emission. Therefore, additional Radiated emission testing is not necessary.

A handwritten signature in black ink, appearing to read 'Gene Santana'.
