

User Manual

Wireless Fast Charger

Instructions:

Operation:

- ① Wireless charging emitter region
 - ② USB cable
 - ③ Make sure the power adapter 12V\1.5A enough input
- .Make sure your phone build-in or install wireless charging receiver
- .Wireless charging is connected after a tick sound

Specification:

Input: DC 12V/1.5A
Wireless Output: 5W
USB-A Output: 5V/2.4A
USB-C Output: 5V/3A
Standby energy consumption:<10mA
Working frequency rang:100KHZ-200KHZ
Transfer efficiency:72% (max) Launch distance:6mm
Installation diameter:60mm
Temperature of outer case:55℃(max)
Size:69x18mm
Weight:50g
Authenticate:CE FCC ROHS

Use:

Phone built-in or add a wireless receiver
Qi standard transmitter is charged automatically
once recognized approximately 5 seconds
If you put the offset distance 7mm not charge

Installation:

In office desk(Dia 60mm)
Punch hole w/60mm by
Professional people
It can be used on the plane
and car

Made in china
