

BlauxBuds

USER MANUAL

THANK YOU

For choosing BlauxBuds!

Listen to music and take calls without getting tied up in a bunch of wires.

BlauxBuds are true wireless earbuds that use Bluetooth® 5.1 to seamlessly connect with your phone or other compatible devices. Enjoy hours of music, hands-free calls, and crystal-clear audio thanks to BlauxBuds' advanced audio engineering.

Kindly read this user manual before using your new wireless earbuds. Make sure to keep this document for future reference.

BLUETOOTH® 5.1

- Weight: 44.5g (Earbuds and charging case)
- Earbuds Input: DC 3.7V 40mA
- Charging Case: Input: DC 5V 300mA
Output: DC 5V 100mA
- Working Time: 4.5 hours
- Earbuds Battery Capacity: 40mAh
- Charging Case Battery Capacity: 300 mAh
- Sensitivity: 101.8±3dB
- Frequency Response Range: 20 - 20,000 Hz
- Impedance: 32 Ω
- Water Resistance Rating: IPX4

QUICK USE GUIDE

- Take the BlauxBuds out of the charging case. The indicators will blink Red and Blue until your BlauxBuds are paired with your device.

- To pair, open your phone's Bluetooth settings. Look for "BlauxBuds" and click to pair your phone with the earbuds. Once they are connected, the lights will blink blue a few times then stop blinking.

Note: If the earbuds do not connect with your phone within 1 minute, they will power off. To fix this, put your earbuds back in their case to restart them.

- Once you're done listening, put the BlauxBuds back in the charging case. They will automatically turn off and start charging.
- When you want to use your BlauxBuds again, simply take them out of the case. They will automatically turn on and connect with your phone.

ONE-BUTTON CONTROL

Short Press	Play/Pause
Long Press (5 Seconds)	Answer/Hang Up
Double click	Power On
Triple click	In 'On' State: Power Off

- No light - Fully charged
- Charging Time: About 1.5 hours

Note: Flashing red lights indicate a low battery

Charging Case

- Blinking white lights - Charging
- Steady white lights - Fully charged
- Charging Time: About 2 hours

WHAT'S INCLUDED

TROUBLESHOOTING

My phone cannot find the BlauxBuds.
Turn off your phone's Bluetooth® connection. Turn it back on, then search for the BlauxBuds again.

The earbuds were interrupted or disconnected during a call or while listening to music. This may be due to:

- Low battery
- The distance between the phone and BlauxBuds exceeding 33 feet (10 meters).
- There are signal-blocking objects between the phone and the BlauxBuds

Only one earbud is working.

- You may have activated single earphone mode. To fix this, while your BlauxBuds are powered on, double click the right earbud's function button to go into pairing mode.
- Then pair your BlauxBuds to your device again.
- One earphone may have run out of battery. To fix this, put your earphones back in the case to charge them up before listening again.

This device complies with Industry Canada licence-exempt RSS (standards). Operation is subject to the following two conditions:
(1) This device may not cause interference, and
(2) this device must accept any interference, including that from radio transmitting devices. Le présent appareil est conforme aux CNR d'Industrie Canada applicables aux appareils radio exempts de licence. L'exploitation est autorisée aux deux conditions suivantes:
(1) L'appareil ne doit pas produire d'interférence, et
(2) l'appareil doit accepter toute interférence radio, y compris celle provenant d'appareils radio non exempts de licence. Cet appareil numérique de la classe B est conforme à la norme NMB-003 du Canada. This equipment complies with Industry Canada licence-exempt RSS (standards). Operation is subject to the following two conditions:
(1) This equipment must not cause interference, and
(2) this equipment must accept any interference received, including interference from radio transmitting devices. Cet équipement est conforme aux limites d'exposition aux radiations définies par le Canada pour des environnements non contrôlés. Cet équipement ne doit pas être installé au même endroit qu'une autre antenne ou un autre émetteur.

At the end of its service life, this product may not be disposed of in the normal household waste, but must be recycled. The materials are recyclable according to their labelling. You make an important contribution to protecting our environment by reusing, recycling, or utilizing old devices in other ways. Please ask the municipal administration where the appropriate disposal facility is located.

FC This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Note: This equipment has been tested and found to comply with the limit for a Class B digital device, pursuant to part 15 of FCC rules. This limit is designed to provide reasonable protection against harmful interference in a residential installation. This equipment uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If interference should occur, the user is encouraged to try to correct the interference by one or more of the following measures: reorient or relocate the receiving antenna; increase the separation between the equipment and receiver; move the equipment into an outlet on a circuit different from that to which the receiver is connected; consult the dealer or an experienced radio/TV technician for help. This equipment complies with the specific operating instructions for satisfying RF exposure compliance. This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.
