

To Whom It May Concern,
Regarding New Certification
For Framery Oy

Mar 2nd, 2021

FRN 0030157325
Grantee Code 2AX4J

We Framery Oy, FRN 0030157325, Grantee Code 2AX4J, hereby declare our intend to certify Framery Control Unit FCC ID: 2AX4J9000456 as a portable module with a BLE containing LTE module FCC ID: 2AX4J201906EG21G. The RF module is used for machine to machine communications and it is tested for simultaneous use of LTE and BLE.

This certified Control Unit FCC ID: 2AX4J9000456 is exclusively for use in Framery's phone booths, like Framery One, and other future Framery meeting space products. Please see Annex 1 on this letter for further details on Framery products.

For the FCC ID: 2AX4J201906EG21G LTE module we declare that there is no change in the design, circuitry, or construction, and the original test results continue to be representative of and applicable to the equipment. It is certified per Class II permissive change. Should you have any questions, please feel free to contact the undersigned.

Sincerely,

Timo Inkinen
Head of Product Development & Quality

Annex 1

Framery One with Framery Control Unit

Framery Oy is established in 2010 at Tampere, Finland and created the business for acoustic phone booths and meeting pods. Framery pods reduce interruptions and distraction on open-plan offices allowing quiet space for focus and conversations without distracting others. Framery Oy has global network of over 200 dealers and we have delivered over 20 000 units world wide of Classic line products Framery O, Q and 2Q.

We are now introducing a revolutionary product again, Framery One, with advanced communication features (RF) on Framery Control Unit.

Control Unit is used for adjusting the phone booth lights and ventilation, for digital calendar bookings/calendar system, information and providing advanced preventive maintenance features for facility management. Control unit performs only M to M communications. For further information on Framery One please visit our web site www.frameryacoustics.com
