

Operation is subject to the following conditions:

CW310 Instruction manual

3 in 1 Fast charge

1. Product description:

1. Charging plug of the bluetooth headset
2. Charging area of the mobile phone

3. Foldable wireless charging module of the watch
4. Working indicator

- 5.type-c power supply port
6.Power indicator

2.Product usage:

- 2.1 This product is charged by being connected to the type-c port on the QC3.0 adapter. When the bottom power indicator lights up, it indicates that the power supply is normal.

- 2.2 Mobile phone charging: align the wireless charging position of your mobile phone with the circular region. When the screen of your mobile phone shows a "charging" sign, it indicates the phone is charging normally.

- 2.3 Bluetooth headset charging: charge the bluetooth headset by plugging it onto its cradle (note: please remove the protective case on the cradle of the bluetooth headset; otherwise, it will cause bad contact and cannot be charged.)

- 2.4 Watch charging: please stand up the wireless charging module of the watch and then put your watch on it to align with the magnetic. When the watch shows a "charging" sign, it indicates that the watch is charging normally.

- 2.5 Working indicator: the blue indicator is always on when the mobile phone is charging, is always off when the mobile phone is not charging or fully charged, and flickers when the mobile phone is charging abnormally.

3. Product specification:

Name	Wireless Charger	Model	CW310
Product size	185X98X13.6 (mm)	Transmission distance	≤5mm
Input	5V --- 2A or 9V --- 2A	Output	3W/5W/10W

FCC WARNING STATEMENT

- Warning: Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This equipment must be installed and operated in accordance with provided instructions and the antenna(s) used for this transmitter must be installed to provide a separation distance of at least 15 cm from all persons and must not be co-located or operating in conjunction with any other antenna or transmitter. End-users and installers must be provided with antenna installation instructions and transmitter operating conditions for satisfying RF exposure compliance.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.
