

EXHIBIT 4 - TEST SETUP PHOTOGRAPHS

Conducted Emission Test Setup	
Radiation Emission Test Setup (Below 30MHz)	

Radiation Emission Test Setup (30MHz to 1GHz)	 A photograph of a radiation emission test setup for the 30MHz to 1GHz frequency range. A black monitor is placed on a yellow stand in the center of an anechoic chamber. The walls are covered with white, square-shaped absorbers. Several vertical metal poles are visible on the left side of the chamber. The floor is a light-colored concrete.
Radiation Emission Test Setup (1GHz to 18GHz)	 A photograph of a radiation emission test setup for the 1GHz to 18GHz frequency range. The same black monitor on a yellow stand is in the center. The walls are covered with white, square-shaped absorbers. The floor is covered with blue, pyramid-shaped absorbers. A red and silver probe is visible on the right side of the chamber.

**Radiation Emission Test
Setup (Above 18GHz)**
