KAON

Contenido del paquete

Su Modem PG2142 incluye los siguientes elementos:

PG2142

Adaptador de
Corriente

Cable Ethernet
(CAT5E/RJ45)

Cable RJ11

Guía de
Instalación Rápida

Conexión del Modem - PC

Antes de la instalación, consulte con su proveedor de servicios para asegurarse de que el servicio de Banda Ancha se encuentra correctamente habilitado.

Paso 1. Encienda el PG2142. El LED de alimentación se encenderá.

Paso 2. Conecte su computadora al puerto LAN de PG2142.

El LED de LAN asociado debe estar ENCENDIDO.

Paso 3. Conecte firmemente la óptica al conector PON.

Paso 4. Si su PG2142 se conecta con éxito a la OLT,

el LED PON se encenderá fijamente.

Paso 5. Asegúrese de que su PC esté configurada para obtener una dirección IP de un servidor DHCP.

Paso 6. Desde su PC, inicie su aplicación de navegador web como Chrome, Internet Explorer, etc.

Paso 7. Escriba una URL válida como "www.kaonbroadband.com" y <Enter>. El sitio web debe abrir si está conectado correctamente.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Warning: changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment

Radiation Exposure Statement

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment.

This equipment should be installed and operated with minimum distance 20cm between the radiator and your body.
