OUR STORY

Founded in 2014, Rownfusny is a leading manufacturer of professional call center and office headsets, combining innovation, precision, and a focus on clear communication. Our products are trusted by customers across the United States, Europe, Japan, and Southeast Asia, and we also provide OEM services for several top global brands.

With a team of 800 professionals, including over 50 R&D experts, every headset is designed in-house and supported by 20 utility patents and 210 design patents, reflecting our commitment to innovation, comfort, and practical design.

Quality is at the core of our process. From production to final inspection, every headset delivers clear audio, durability, and a premium feel.

With Rownfusny, you don't just make calls—you experience them. Every headset makes conversations clearer, interactions smoother, and work more productive.

WHAT'S IN THE BOX

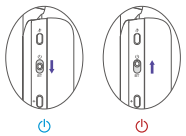

TECH SPEC

Model	HB04P
Battery Capacity	450mAh/3.7V
Charging Time	2 ± 0.5 Hours
Working Hours	About 35 Hours
Standby Time	About 200 Hours
Product Input	Type-C DC5V/0.32A
Drive Unit Diameter	30mm
Frequency Response	20Hz ~ 20KHz
Speaker Impedance	32Ω ± 15%
Microphone Sensitivity	-40 ± 3dB

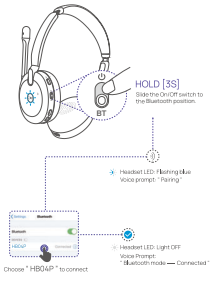

POWER ON/OFF

Slide the **On/Off** switch to the **On** or **Off** position to power the headset on or off.

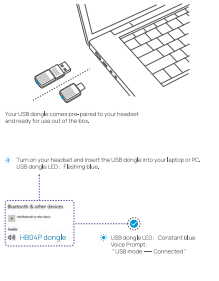

CONNECT - BLUETOOTH MODE

Pair to mobile device

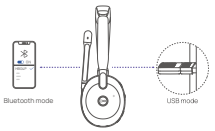

CONNECT - USB MODE

Connect to PC

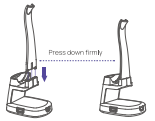

MULTI-POINT CONNECTION

Supports Bluetooth and USB dual-mode connection.

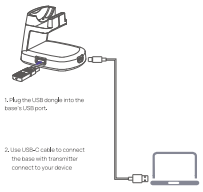

BASE MOUNT INSTALLATION

Before first use, the base and bracket must be installed in place.

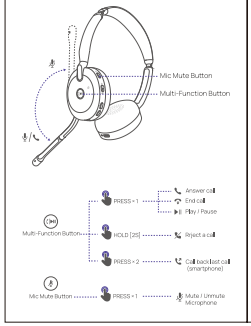

ONE-PORT DUAL CONNECT

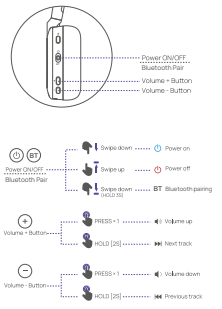

What if my device doesn't have enough USB ports?

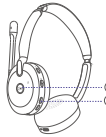

CONTROLS

CONTROLS

FACTORY RESET

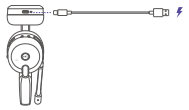

BUSYLIGHT(S)

The Busylight(s) on the headset automatically light up red when you are on a call to indicate to colleagues that you are busy.
To manually switch the Busylight(s) on/off, press the Volume up and Volume down buttons at the same time.

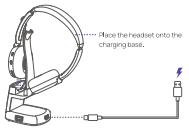

CHARGING

1. Direct Charging via Headset USB-C Port

The headset's built-in USB-C port is charge-only and cannot be used for wired audio connections.

2. Deck Charging via Charging Base

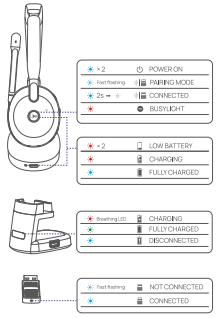

SLEEP MODE

When the headset is powered on in USB mode and is not playing music or in a call, it will automatically enter sleep mode after 10 minutes to conserve battery. To exit sleep mode, simply resume playback from the source or press the M/FB button.
• In Bluetooth mode, the headset will not enter sleep mode.

After 50 minutes in sleep mode, the headset will power down completely. To power the headset on, slide the On/Off switch to Off and then to On.

LED BEHAVIORS

IMPORTANT INFORMATION

1. Read the user manual before use. To access manuals in other languages and detailed video tutorials, scan the QR code on the cover.
2. Fully charge the headset for the first time, but do not exceed 12 hours.
3. If not used for a long time, charge the headset every 2 weeks.
4. Use a charger and USB-C cable that meet safety specifications.
5. Do not disassemble or repair the headset yourself.
6. Avoid using it in extremely high or low temperatures.
7. Do not use charging bases from other brands.
8. Avoid prolonged use at high volume.

AFTER-SALES POLICY

- 30-Day Free Repair or Replacement
- 1-Year Comprehensive Warranty
- 24/7 Online Customer Service

We provide 24/7 online customer service to assist you anytime. Please note that message reception may be slightly delayed on weekends or holidays. Some emails may also end up in your spam folder, so if you don't receive a reply, please try sending your message again.

FCC STATEMENT

1. This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:
(1) This device may not cause harmful interference, and
(2) This device must accept any interference received, including interference that may cause undesired operation.
2. Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation.
This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
Reorient or relocate the receiving antenna.
Increase the separation between the equipment and receiver.
Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
Consult the dealer or an experienced radio/TV technician for help.

RF warning statement:
The device has been evaluated to meet general RF exposure requirement.
The device can be used in portable exposure condition without restriction.
