OUR STORY

Founded in 2014, Rownfusny is a leading manufacturer of professional call center and office headsets, combining innovation, precision, and a focus on clear communication. Our products are trusted by customers across the United States, Europe, Japan, and Southeast Asia, and we also provide OEM services for several top global brands.

With a team of 800 professionals, including over 50 R&D experts, every headset is designed in-house and supported by 20 utility patents and 210 design patents, reflecting our commitment to innovation, comfort, and practical design.

Quality is at the core of our process. From production to final inspection, every headset delivers clear audio, durability, and a premium feel.

With Rownfusny, you don't just make calls—you experience them. Every headset makes conversations clearer, interactions smoother, and work more productive.

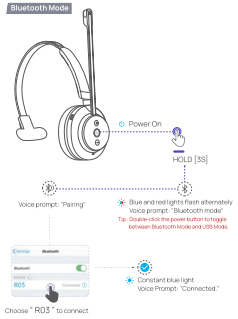
WHAT'S IN THE BOX

TECH SPEC

Model:	R03-P
Battery Capacity:	300mAh/3.7V
Charging Time:	2 ± 0.5 Hours
Bluetooth Mode Working Hours:	About 25 Hours
USB Mode Working Hours:	About 21 Hours
Standby Time:	About 200 Hours
Product Input:	Type-C DC5V/1A
Drive Unit Diameter:	30mm
Frequency Response:	20Hz - 20KHz
Speaker Impedance:	32Ω ± 15%
Microphone Sensitivity:	-40 ± 3dB

POWER ON & CONNECT

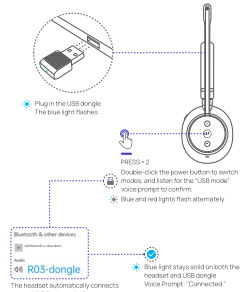
Bluetooth Mode



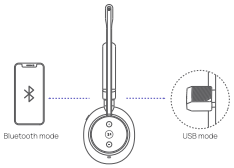
★ IF YOU WANT TO CONNECT ANOTHER DEVICE, PLEASE TURN OFF THE HEADSET FIRST. THEN PRESS AND HOLD THE POWER BUTTON FOR 5 SECONDS TO ENTER PAIRING MODE AGAIN.

CONNECT

USB Mode



MULTI-POINT CONNECTION



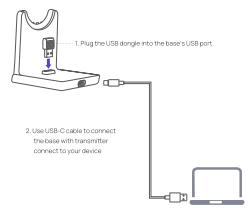
Can't hear any sound?

Step 1: Check Mode Settings
Make sure your headset is in the correct mode.
Double-click the power button to switch between USB mode and Bluetooth mode.
Listen for "USB mode" or "Bluetooth mode" to confirm.

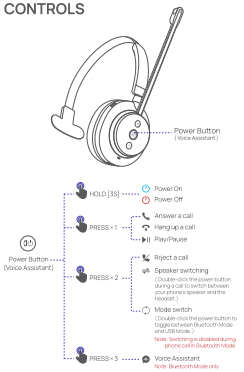
Step 2: Check Other Device Connections
If the headset still does not work, it may be paired with another device.
Perform a " FACTORY RESET " on the headset, then re-pair it with your device.

ONE-PORT DUAL CONNECT

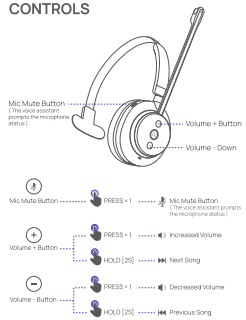
What if my device doesn't have enough USB ports?



CONTROLS



CONTROLS



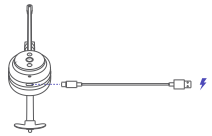
FACTORY RESET

MICROPHONE POSITIONING

When using the microphone, it should be positioned close to your mouth.

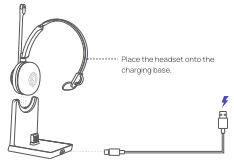
CHARGING

1. Direct Charging via Headset USB-C Port

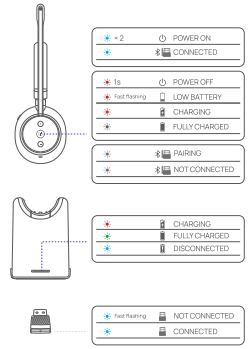


★ The headset's built-in USB-C port is charge-only and cannot be used for wired audio connections.

2. Dock Charging via Charging Base



LED BEHAVIORS



IMPORTANT INFORMATION

1. Read the user manual before use. To access manuals in other languages and detailed video tutorials, scan the QR code on the cover.
2. Fully charge the headset for the first time, but do not exceed 12 hours.
3. If not used for a long time, charge the headset every 2 weeks.
4. Use a charger and USB-C cable that meet safety specifications.
5. Do not disassemble or repair the headset yourself.
6. Avoid using it in extremely high or low temperatures.
7. Do not use charging bases from other brands.
8. Avoid prolonged use at high volume.

AFTER-SALES POLICY

· 30-Day Free Repair or Replacement
· 1-Year Comprehensive Warranty
· 24/7 Online Customer Service

We provide 24/7 online customer service to assist you anytime. Please note that message reception may be slightly delayed on weekends or holidays. Some emails may also end up in your spam folder, so if you don't receive a reply, please try sending your message again.

FCC STATEMENT

1. This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:
(1) This device may not cause harmful interference, and
(2) This device must accept any interference received, including interference that may cause undesired operation.
2. Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation.
This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
Reorient or relocate the receiving antenna.
Increase the separation between the equipment and receiver.
Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
Consult the dealer or an experienced radio/TV technician for help.

RF warning statement:
The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
