To Whom It May Concern,

The chip FR8016H installed in our product EW Standard Bluetooth Module (model name: EW-BLED-22, FCC ID: 2AXDJ-EWBLED22), which supports BLE 1MHz and BLE 2MHz functions. But for this product, it only activates BLE 1MHz function, the BLE 2MHz is disabled by using the software.

Please contact me if there is need for any additional clarification or information.

Best Regards,

Sincerely Yours,
