Introduction

Purpose

This manual describes the functions and technical specifications of HolaBot to help users better understand and work with the robot.

Audiences

This manual is intended for:

- Customers
- Sales engineers
- Installation and commissioning engineers
- Technical engineers

Revision History

Time	Revision History
Aug.12,2021	Initial release

Signs

The signs listed below may appear in this manual with the following meanings.

Sign	Description
 Danger	Indicates high potential hazards, which could cause death or serious personal injury if not avoided.
 Warning	Indicates moderate or low potential hazards, which could cause minor personal injury or robot damage if not avoided.
 Caution	Indicates potential risks, which could cause robot damage, data loss, or unpredictable consequences if neglected.
 Note	Provides additional information as the emphasis and supplement to the main text.

1. Safety instructions

Power usage:

- Always use the original rechargeable batteries and chargers. Do not charge your robot using non-original chargers. If the charger is damaged, replace it immediately.
- When the battery drops to 20%, the robot should be charged timely. Running at a low battery for a long time may impair battery life.
- Make sure that the power voltage matches the voltage indicated on the charger, or it may cause damage to the charger.
- When using the charger, ensure that the fastener of the charging interface is fully engaged to avoid overheating during charging, which may cause burns or damage to the equipment.

Robot usage:

- Do not cover the robot's stop camera while it is working to prevent it from moving abnormally. If the camera is covered, pause the current task and move the robot to the correct route before continuing the task.
- Do not clean or maintain the robot when it is powered on and working.
- Do not put open-flame stoves or any flammable and explosive articles on the robot.
- Do not pick up and place food or collect dishes while the robot is moving to avoid any food loss, dishes damage, or personal injury caused by accidental collision.
- Do not move or transport the robot while it is working to prevent it from moving abnormally.
- The robot must not be disassembled or repaired by untrained personnel. In case of malfunction, contact Shenzhen Pudu Technology Co., Ltd. for technical support in time.
- Observe the maximum weight a person is allowed to lift as required by local laws and regulations when transporting the robot. Keep the robot upright during transportation. Never attempt to transport it by lifting the tray or the box.

Environment:

- Do not use or charge the robot in a high temperature/pressure environment, areas with fire or explosion hazard, or other dangerous scenarios to avoid personal injury or robot damage.
- Do not use the robot in a humid environment or on surfaces covered with fluid or gooey stuff to avoid damage to the robot.
- Do not use the robot in places where the use of wireless devices is explicitly prohibited, otherwise it may cause interference to other electronic devices or lead to other dangers.
- Do not dispose of the robot or its accessories as household waste. Always dispose of the robot and its accessories according to local laws and regulations, and recycle wherever possible.

2. Productcomponents

2.1 Packinglist

Robot x 1,HolaBotUserManual x 1,QualityCertificate x 1,WarrantyCard x 1,Charger x 1,PowerKey x 1,Markers x 1.

2.2 Overview

As a delivery robot that features calling and notifications, HolaBot supports SLAM positioning and navigation solutions integrating both visual and laser positioning. Featuring high carrying capacity, voice control, and remote operability, HolaBot integrates functions including calling, notification, and autonomous movement and can be used in various scenarios efficiently, conveniently, and flexibly. HolaBot comes with various modes, including Delivery Mode and Dish-return Mode, to cater to the needs of different scenarios.

2.3 Appearance&components

No.	Description
1	Dot matrix screen
2	Depth vision sensors
3	Power switch

4	Trays
5	Charging jack
6	Lidar
7	Drive wheels
8	Auxiliary wheels
9	Light strips
10	Battery box
11	Lightning button
12	Infrared gesture sensor
13	LCD screen
14	6-mic circular array kit
15	Emergency stop switch
16	Vision sensor

2.4 Specifications

Feature	Description
Operatingvoltage	DC23–29.4V
Powerinput	AC100–264V,50/60Hz
Poweroutput	29V/8A
Batterycapacity	25.6Ah
Chargingtime	4.5h
Battery life	10–24h
Cruisespeed	0.5–1.2m/s(adjustable)
Navigation	Laser and visual integrated SLAM positioning
Min.travelwidth	70cm
Max.surmountableheight	7mm
Max.climbingangle	5 °
Traydimensions	390 mm x 360 mm, 120 L ultra-large volume
No.oftrays	Four

Heightbetweentrays	Fromtoptobottom: 216 mm/184 mm/184 mm/184 mm
Trayload	Flat and smooth ground:15kg/layer; 5 mm surmountable heigh: 10 kg/layer
Machinematerial	ABS/aviationgradealuminumalloy
Robotweight	60kg
Robotdimensions	542 mm x 534 mm x 1226 mm
Screensize	10.1-inchLCDscreen
Operationsystem	Android
Microphone	6-miccirculararraykit
Speakerpower	2×10Wstereospeakers
Servicelife	5years
Workingenvironment	Temperature:0℃to40℃; RH:≤85%
Storageenvironment	Temperature:-40℃to65℃; RH:≤85%
Workingaltitude	<2000m
Surface requirement	Indoorenvironment,flatandsmoothground
IPrating	Robot: IP20 Tray compartment: IPX5
Frequencybandrange	
Max.transmitpower	

3. Howtouse

- **Power-on:** Move the robot to the startup location, and press and hold the power switch for 1 second. The light strips and dot matrix screen will flash, indicating that the robot is powered on.

Caution

Besuretoturnthekeyswitchto"ON"andpushbackthebatterybackcoverbeforepoweringontherobot

- **Power-off**

Press and hold the power switch for 3 seconds, the **Power Off** option will appear on the screen. Tap the **Power Off**, and the light strips, dot matrix screen, and LCD screen will go off, indicating that the robot is powered off.

- **Pause:**

5. After-sales service

Shenzhen Pudu Technology Co., Ltd. provides free warranty service within the effective warranty period (the warranty period may vary for different components). The fees incurred by the after-sales service will be covered by Pudu. Beyond the warranty period or in any circumstances not covered by the free warranty, a certain fee will be charged according to the normal price. Please call the after-sales hotline for detailed after-sales service policy and repair services. The policy can also be found in *HolaBot Operation Guide*.

Pudu after-sales email: techservice@pudutech.com.

6. Compliance information

6.1 Federal Communications Commission compliance statement

The following information applies to Pudu robotic.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This device complies with Part 15 of the FCC rules. Operation is subject to the following two conditions:

- This device may not cause harmful interference.

This device must accept any interference received, including interference that may cause undesired operation.

6.2 Industry Canada compliance statement

This device complies with Industry Canada licence-exempt RSS standard(s). Operation is subject to the following two conditions:

- This device may not cause interference.
- This device must accept any interference, including interference that may cause undesired operation of the device.

6.3 Disposal and recycling information

The Waste Electrical and Electronic Equipment (WEEE) Directive aims to minimize the impact of electrical and electronic goods on the environment, by increasing re-use and recycling and by reducing the amount of WEEE going to land fill. The symbol on this product or its packaging signifies that this product must be disposed separately from ordinary household wastes at its end of life. Be aware that this is your responsibility to dispose of electronic equipment at recycling centers in order to conserve natural resources. Each country should have its collection centers for electrical and electronic equipment recycling. For information about your recycling drop off area, please contact your related electrical and electronic equipment waste management authority.

thority, your local city office, or your household waste disposal service.

Before placing electrical and electronic equipment (EEE) in the waste collection stream or in waste collection facilities, the end user of equipment containing batteries and/or accumulators must remove those batteries and accumulators for separate collection.

FCC Compliance Statement

1. This device complies with Part 15 of the FCC rules. Operation is subject to the following two conditions:
(1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.
2. Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

FCC information

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to

try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

To maintain compliance with FCC's RF Exposure guidelines, This equipment should be installed and operated with minimum distance between 20cm the radiator your body: Use only the supplied antenna.

Industry Canada compliance statement

CAN ICES-3(B)/NMB-3(B)

English:

This device contains licence-exempt transmitter(s)/receiver(s) that comply with Innovation, Science and Economic Development Canada's licence-exempt RSS(s). Operation is subject to the following two conditions:

1. This device may not cause interference.
2. This device must accept any interference, including interference that may cause undesired operation of the device.

French:

L'émetteur/récepteur exempt de licence contenu dans le présent appareil est conforme aux CNR d'Innovation, Sciences et Développement économique Canada applicables aux appareils radio exempts de licence. L'exploitation est autorisée aux deux conditions suivantes :

1. L'appareil ne doit pas produire de brouillage;
2. L'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement.

Manufacturer's Name: SHENZHEN PUDU TECHNOLOGY CO., LTD.

Address: Room 501, Building A, Block 1, Phase 1, Shenzhen International Inno Valley, Dashi 1st Road, Nanshan District, Shenzhen, China 518057

Product name : Pudu HolaBot

Model number: HL100

Operating Temperature: 0°C to 40°C

This device in compliance with the essential requirements and other relevant provisions of Directive 2014/53/EU. All essential radio test suites have been carried out.

1. The product shall only be connected to a USB interface of version USB 2.0
2. Adapter shall be installed near the equipment and shall be easily accessible.
3. The plug considered as disconnect device of adapter
4. The device complies with RF specifications when the device used at 20cm form your body
5. Operations in the 5.15-5.35GHz band are restricted to indoor usage only.

Restrictions in the 5 GHz band:

According to Article 10 (10) of Directive 2014/53/EU, the packaging shows that this radio equipment will be subject to some restrictions when placed on the market in Belgium (BE), Bulgaria (BG), the Czech Republic (CZ), Denmark (DK), Germany (DE), Estonia (EE), Ireland (IE), Greece (EL), Spain(ES), France (FR), Croatia (HR), Italy (IT), Cyprus (CY), Latvia (LV), Lithuania(LT), Luxembourg (LU), Hungary (HU), Malta (MT), Netherlands (NL), Austria(AT), Poland (PL), Portugal (PT), Romania (RO), Slovenia (SI), Slovakia (SK),Finland (FI), Sweden (SE), Turkey (TR), Norway(NO), Switzerland (CH), Iceland (IS), and Liechtenstein (LI).

According to Radio Equipment Regulations (SI 2017/1206), the packaging shows that this radio equipment will be subject to some restrictions when placed on the market in the United Kingdom (UK)
