

S358 LOOP Antenna report

Antenna type: LOOP

Antenna material: Electroplated spring steel

Test frequency: 2400 MHz、2440MHz、2480MHz。

Antenna impedance: 50 ohms

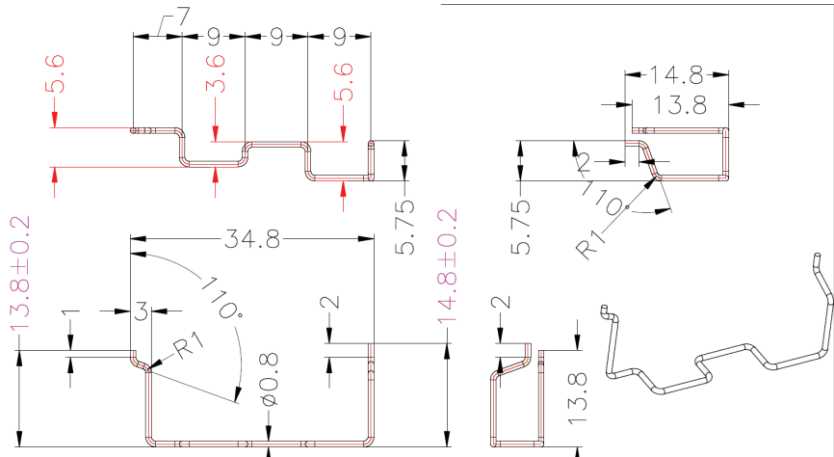

Antenna directivity: Omnidirectional

Testing Organization: Saixun communication

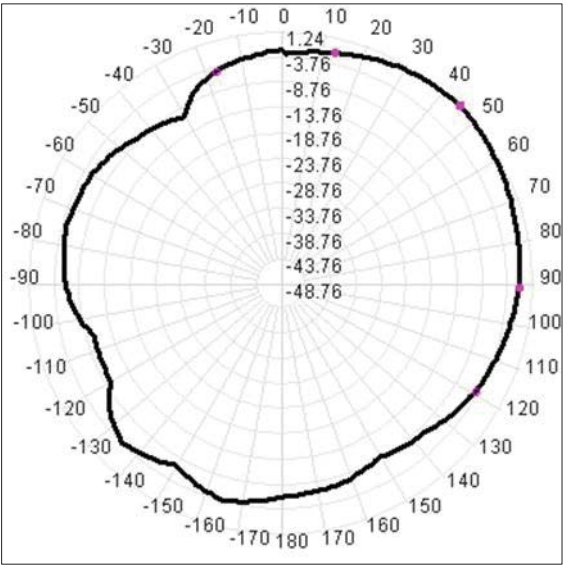

Antenna Manufacturing Factory: Dongguan Humen Fangyan Hardware Spring Factory

Address: Workshop on the third floor behind the same hotel at Juqi intersection, Humen Town, Dongguan City

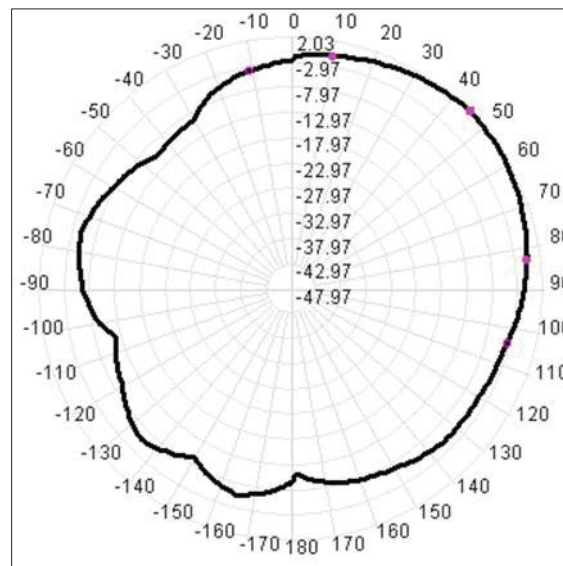

Antenna structure diagram:

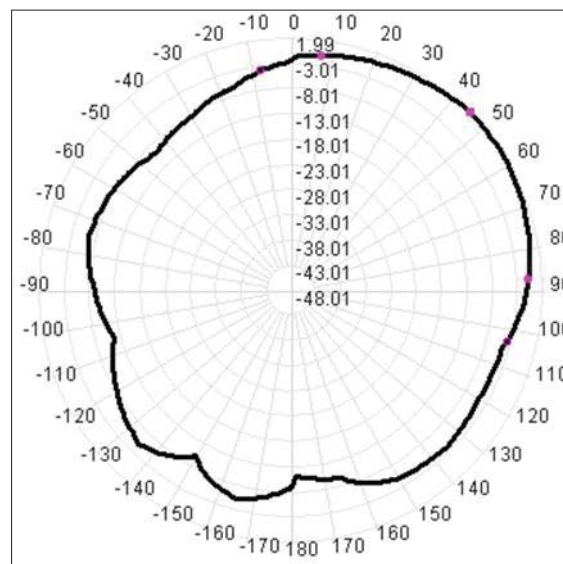

Freq (MHz)	Gain (dBi)
2400	1.86
2440	2.38
2480	2.39

2400MHz

2440MHz

2480MHz
