For the latest product and documentation updates, please visit: wiki.creality.com	Product Usage Notice For your convenience, please read the following documents carefully before using this product to ensure proper and safe operation of your SPARKX i8 3D printer, as well as to understand your legal rights and responsibilities. SPARKX i8 3D Printer Quick Start Guide SPARKX i8 3D Printer Disclaimer and Safety Guidelines The Creality team is always ready to provide quality service. Please contact us if you encounter any issues during use Safety Guidelines 1.This product is for indoor use only and should be placed in a dry, well-ventilated, and low-dust environment. 2.Operate the product in an environment with a temperature between 10°C and 30°C and relative humidity below 85%. 3.Keep the product away from heat sources, direct sunlight, flammable, or explosive materials. 4.Place the printer on a clean, stable, and vibration-free surface. 5.Use the supplied power cable and ensure the power outlet is a properly grounded three-prong socket. 6.Do not use multiple plug adapters or power extension cords to avoid overload or electric leakage. 7.Do not touch the nozzle, heated bed, or internal components during operation to prevent burns or mechanical injury. 8.Never disassemble or touch internal structures while the printer is operating. 9.Avoid touching the power switch or machine with wet hands or bare feet. 10. Always ensure the device is completely powered off before installation, maintenance, or cleaning. Such operations should be performed by trained or qualified personnel in compliance with local safety regulations. 11.The printer should be operated only by trained or knowledgeable users. 12. Children must not use or approach the device without constant adult supervision. 13.Users must comply with local laws and safety regulations and must not use the device for any illegal purposes.	FCC Compliance Notice This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation. Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment. NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception,which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures: --- Reorient or relocate the receiving antenna. --- Increase the separation between the equipment and receiver. --- Connect the equipment into an outlet on a circuit differentfrom that to which the receiver is connected. --- Consult the dealer or an experienced radio/TV technician for help. To maintain compliance with FCC's RF Exposure guidelines, This equipment should be installed and operated with minimum distance between 20cm the radiator your body; Use only the supplied antenna.
