including interference that may cause undesired operation
of the device.

**READ BEFORE
SIGNING FREIGHT BILL**

Your responsibility is to inspect the cartons for any visible or obvious damage to the carton/crate or enclosed product and note the damage on carrier's FREIGHT BILL.

THIS IS VERY IMPORTANT! Note on the bill any discrepancy, even a little dent in the carton or if the machine was standing on end.

Do not be intimidated by the truck driver's presence –
INSPECT THOROUGHLY!

Any damage must be noted on the freight bill to exclude
YOUR PORTION OF FREIGHT CLAIM LIABILITY.

DO NOT SIGN the Freight Bill before the damage is noted.

Thank you for your continued support.
