Add the lock

Figure 1 illustrates the process of using a smartphone to unlock a padlock. The sequence shows: 1) A physical padlock with a QR code. 2) A smartphone screen displaying a 'Scan the lock' dialog with a camera icon. 3) A smartphone screen displaying a 'Smart Lockscreen' dialog with a device code 'GFFY000000'. 4) A smartphone screen displaying a 'Passkey' dialog with a padlock icon and a confirmation message: 'It's gonna be faster to make up the passcode'.

If the QR code lost, it can add the lock by Bluetooth

Attention

Register fingerprints

TECHNOLOGY HAS CHANGED LIFE

Attention

Only administrators can set to register fingerprints and delete fingerprints. The old version locks can not delete single fingerprint.

Cancel opening authorization

TECHNOLOGY HAS CHANGED LIFE

View opening records

View the phone's opening record: Click "Records" in the bottom - View phone's all opening records, including the user and the open time.

View fingerprint opening record: Enter the lock name - Click "record" button - Click "Synchronize fingerprint opening record" - Touch fingerprint panel- Synchronize fingerprint unlock record after connected automatically.

TECHNOLOGY HAS CHANGED LIFE

Attention

During synchronizing fingerprint opening records, it should make the phone close to the lock. Please do not disconnect Bluetooth or shut off the APP midway, otherwise it will lead to the records incomplete. Usually it stores fingerprint opening records in the built-in memory inside the lock. Due to memory limits, up to 200 unlock records will be stored. Old records will be deleted automatically when memory is full.

Service support

In personal center, it can contact with our customer service officer online or by telephone, or write down your questions or suggestions through "Feedback". Our reply can be found in "Feedback record".

Charge problem

If it occurs the situation, ① the indicator light does not flash; ② the red light flashes and the lock cannot be opened; ③ the lock cannot be locked, it should be in low battery or out of power. Suggest to charge the lock for half an hour before opening. If it does not flash blue light when charging the lock, please check the charge port whether USB cable is plugged in upside down. Please plug in the USB cable properly. Cable plugged in reversely will fail to charge and may damage the battery. If the lock does not charge after USB cable is plugged in properly, please clean pins in charge port with a Q-tip and try again. If the lock still does not charge after all attempts, please contact customer service.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) this device may not cause harmful interference, and
- (2) this device must accept any interference received, including interference that may cause undesired operation.
