- 5. MIRE (1)

Spectron 7

- 1. PRIMARY CAMERA (1)
- 2. CLIMATE SENSOR (1)
- 3. SECONDARY CAMERA (1)
- 4. DINM MOUNT (1)
- 5. POWER ADAPTER (1)
- 6. USB CABLE (1)
- 7. HOOD-AND-LOOP STRAP (1)
- 8. MIRE (1)

AI insights are based on visual patterns which may be limited. Always rely on proper AI insights and proper judgment.

Powering and Setup

Step 1

Test the camera onto the DINM mount.

Step 2

Mount the camera onto your power cord using the DINM mount. Adjust the angle of the camera to suit your needs using the side knobs. Do not over-tighten.

Step 3

Use the USB cable to connect the camera to the power adapter.

Step 4

Plug the adapter into an AC power outlet to power it.

Factory Reset

If you wish to reset the camera and restore factory settings, hold down the SETUP button at the bottom of the camera for 10 seconds until you hear a 3-beep tone.

Spectron 7 Secondary Camera

Step 1

Wipe the hood-and-loop strap around one side of the secondary camera.

Step 2

Place the camera against the back wall and top the strap through the other end of the camera and around to secure the hole.

Powering the Secondary Camera

Connect the sensor and the secondary camera to the primary camera.

The climate sensor part only supports the included sensor sensor.

App Setup Getting Started

AC Infinity App

Download the AC Infinity app and make sure the camera is plugged in and powered on. Logging in or creating an account below will expedite the pairing process. Have your Wi-Fi network's name and password ready.

Camera Light Indicators

- **Setup Red** The camera connection is disconnected or unstable.
- **Pairing Red** The camera is in pairing mode.
- **Setup Blue** The camera is working normally.
- **Pairing Blue** The camera is in pairing mode and establishing a connection.
- **Pairing Green** The camera is updating its firmware.

App Setup Connecting to the App

Step 1

Tap on the "+" tab to add your smart device. You will be directed to the device page.

Step 2

To activate pairing mode, hold down the SETUP button at the bottom of the camera until you hear a 3-beep tone and see the indicator light flashing blue and red.

Step 3

The camera will be detected automatically. Tap "Pair This Device" to continue. See page 11 for Wi-Fi instructions.

Step 4

If the camera is not detected, proceed to step 4.

App Setup Connecting to the App

Step 4

If the camera is not detected, tap on the Spectron picture on the device page.

Step 5

The "Activate Pairing Mode" page will appear. Choose to scan the camera's QR code engraved on the primary camera or tap "Next" to try automatic pairing again.

App Setup Connecting to the App

Step 6

Once the camera is successfully detected, tap "Connect to Wi-Fi" to continue.

App Setup Connecting With Wi-Fi

Step 1

Enter your Wi-Fi network's password. You may also connect to an Ethernet 2.4 GHz router.

Step 2

Follow these steps if the pairing process is unsuccessful:

- 1. Tap the "DONE" button to complete the pairing process. You will be able to see a live image of your view.
- 2. Tap the "PAIR" button to start the pairing process.
- 3. Tap the "PAIR" button to start the pairing process.
- 4. Tap the "PAIR" button to start the pairing process.
- 5. Tap the "PAIR" button to start the pairing process.
- 6. Tap the "PAIR" button to start the pairing process.
- 7. Tap the "PAIR" button to start the pairing process.
- 8. Tap the "PAIR" button to start the pairing process.
- 9. Tap the "PAIR" button to start the pairing process.
- 10. Tap the "PAIR" button to start the pairing process.
- 11. Tap the "PAIR" button to start the pairing process.
- 12. Tap the "PAIR" button to start the pairing process.
- 13. Tap the "PAIR" button to start the pairing process.
- 14. Tap the "PAIR" button to start the pairing process.
- 15. Tap the "PAIR" button to start the pairing process.

App Setup Solo Connect

Step 1

Tap the "DONE" button to complete the pairing process. You will be able to see a live image of your view.

Step 2

Tap the "PAIR" button to start the pairing process.

Step 3

Tap the "PAIR" button to start the pairing process.

Step 4

Tap the "PAIR" button to start the pairing process.

Step 5

Tap the "PAIR" button to start the pairing process.

Step 6

Tap the "PAIR" button to start the pairing process.

Step 7

Tap the "PAIR" button to start the pairing process.

Step 8

Tap the "PAIR" button to start the pairing process.

Step 9

Tap the "PAIR" button to start the pairing process.

Step 10

Tap the "PAIR" button to start the pairing process.

Step 11

Tap the "PAIR" button to start the pairing process.

Step 12

Tap the "PAIR" button to start the pairing process.

Step 13

Tap the "PAIR" button to start the pairing process.

Step 14

Tap the "PAIR" button to start the pairing process.

Step 15

Tap the "PAIR" button to start the pairing process.

App Setup Pairing With AI Controllers

Step 1

Tap the "LINK WITH AI CONTROLLER" button to proceed.

Step 2

Tap the "PAIR" button to start the pairing process.

Step 3

Tap the "PAIR" button to start the pairing process.

Step 4

Tap the "PAIR" button to start the pairing process.

Step 5

Tap the "PAIR" button to start the pairing process.

Step 6

Tap the "PAIR" button to start the pairing process.

Step 7

Tap the "PAIR" button to start the pairing process.

Step 8

Tap the "PAIR" button to start the pairing process.

Step 9

Tap the "PAIR" button to start the pairing process.

Step 10

Tap the "PAIR" button to start the pairing process.

Step 11

Tap the "PAIR" button to start the pairing process.

Step 12

Tap the "PAIR" button to start the pairing process.

Step 13

Tap the "PAIR" button to start the pairing process.

Step 14

Tap the "PAIR" button to start the pairing process.

Step 15

Tap the "PAIR" button to start the pairing process.

App Setup Pairing With AI Controllers

Step 1

Tap the "PAIR" button to start the pairing process.

Step 2

Tap the "PAIR" button to start the pairing process.

Step 3

Tap the "PAIR" button to start the pairing process.

Step 4

Tap the "PAIR" button to start the pairing process.

Step 5

Tap the "PAIR" button to start the pairing process.

Step 6

Tap the "PAIR" button to start the pairing process.

Step 7

Tap the "PAIR" button to start the pairing process.

Step 8

Tap the "PAIR" button to start the pairing process.

Step 9

Tap the "PAIR" button to start the pairing process.

Step 10

Tap the "PAIR" button to start the pairing process.

Step 11

Tap the "PAIR" button to start the pairing process.

Step 12

Tap the "PAIR" button to start the pairing process.

Step 13

Tap the "PAIR" button to start the pairing process.

Step 14

Tap the "PAIR" button to start the pairing process.

Step 15

Tap the "PAIR" button to start the pairing process.
