

EXHIBIT 3 - TEST SETUP PHOTOGRAPHS

Conducted Emission Test Setup	 A photograph showing a conducted emission test setup. On the left, a piece of electronic equipment, possibly a spectrum analyzer or a power supply, sits on a wooden workbench. A power cord is plugged into a wall outlet. On the floor next to the workbench is a large, rectangular, silver-colored metal shielded enclosure. A power cord is plugged into its front panel. To the right, another wooden workbench is visible, with a power strip and a red fire extinguisher on top.
Radiation Emission Test Setup (Below 30MHz)	 A photograph showing a radiation emission test setup. In the center, a yellow metal shielded enclosure sits on a wooden pallet. In the foreground, a blue metal frame stands on a wooden pallet, with a silver-colored metal shielded enclosure inside it. The background is a wall covered with white, square-shaped absorbers. The floor is a dark, polished surface.
