If you want to pair the speaker with another device ,press and hold the Mode button to disconnect the current device and the speaker becomes detectable,press power button to reconnect.

1. When two speakers connect for the first time, press "+" to enter TWS mode. After TWS paired, master speaker indicator keeps flickering while the slave one keeps on.
2. If two speakers TWS paired successfully, they will auto reconnect next time.
3. When TWS paired successfully, blue light of the slave-speaker will keep on. You will see the status of the speakers from the master speaker.
4. When TWS paired successfully, operate either of the speakers, the other will have the same operation simultaneously.
