Subject: RADIO Certification of OCP_SCM

Applicant: EZERZER Hugo
Product (PMN): OCP_G0289
Model (HVIN): OCPICSDSCM
FCC ID: 2AXRGOCPICSDSCM
IC ID: 26545-OCPICSDSCM

To Whom It May Concern:

We would like to submit the above product for Certification concerning FCC and Canadian rules.

Please review all required documents enclosed.

Please note that this request is made under Class II Permissive Change in a Limited Modular Approval context.

This application is dedicated to ATM protection range of products: based on ink staining solutions, it permits to reduce to zero the benefits of any kind of ATM attacks.

In order to keep **OCP_G0289** radio design, this reference (**OCP_SCM**) uses the same characteristics (schematic and routing basis). In fact, it is an evolution of the previous revision OCP_SCM since some components have been changed due to obsolescence.

Compliance for RF exposure requirement was demonstrated in those test reports.

If you have any queries, please do not hesitate to contact us.

Regards,

EZERZER Hugo, November 24th 2022
