SLIM TAG

AT2503/ VT2503/ IS2503/ AT2502/ VT2502/ IS2502

Introduction

This TAG offers dual-network compatibility with Apple Find My Network and Find Hub network. The thin profile makes it easily slide into tight spaces such as wallets, purses, or pockets, saving space and simplifying your life. This tag is waterproof, and has a non-replaceable, rechargeable battery that lasts for 3 to 6 months on a single charge. You can charge it wirelessly. A simple setup can pair this item tracker with the Find My app on your Apple devices or the Find Hub app on your Android™ devices to track down your nearby items by playing a sound. With Find Hub and Find My, all of your device location information remains private and safely stored

Included in the Box

Item	SLIM TAG
	User Manual

Note:

- To use the Apple Find My app or the Find Items app on Apple Watch to locate this item, the latest version of iOS, iPadOS, macOS, or watchOS is recommended.
- To use the Find Hub app to locate this item, the latest version of Android is recommended.

Controls and Status

Power Button	Status	Buzzer
Quick Press	Power On	Two Short Beeps
Long Press for 3 Seconds	Power Off	Long Beep
Long Press for 10 Seconds	Reset*	Two Long Beeps with a 7-second Interval

*This will restore the tag to factory settings and clear all the connection data. You must remove the item from the Find My app or the Find Hub app and add it back before using it again.

- 1.No Disassembly: Avoid damage and potential hazards.
- 2.Safe Disposal: Adhere to local regulations.
- 3.Child Safety: Inaccessible to children and pets.

Functions

Charging Your TAG

Place the TAG centrally on the wireless charging pad.Ensure the White LED indicator on the TAG lights up, which confirms that the placement is correct. When the green light blinks, signaling charging has begun. When fully charged, the green light will remain on. Charging Time: Approximately 1 hours for a full charge.

Long-distance Tracking

If your item is lost outside the 60-metre Bluetooth range, the Find My network or Find Hub network connecting hundreds of millions of Apple or Android devices worldwide will help track your item. All the while, your privacy is protected at every step of the way.

Left-behind Alerts

If your item is left behind and disconnects from the Bluetooth of your paired device, the device will instantly send you notifications without additional fees.

Discourage Unwanted Tracking

If someone's tag lands on your items, your Apple or Android device will automatically detect that tag and send you an alert to prevent unwanted tracking. you can also play sound to help find it.

Pair with Find My App

1. Turn on your iOS device's Bluetooth. Make sure your iOS device is in the latest version.

2. Quick press the tag's power button to turn it on and place it near to your iOS device.

Pair with Find Hub App

1. Go to settings on your Android device and turn on Bluetooth to get started.
2. Quick press the tag's power button to turn it on and place it near to your Android device
3. Follow the **Find Hub** pop-up Prompt on your Android device.

Specifications

Dimensions	85.5*54*1.6 mm
Weight	14 g
Range	Up to 200 ft (60 m)
Battery	DC3.7V, 100mAh, Rechargeable
Frequency	2402~2480 MHz
Working Temperature	0~40°C(0~104°F)
Transmit Power	4 dBm
Connectivity	Bluetooth
Compatibility	iOS Devices & Android Devices
Firmware Update	Find My app or Find Hub app
Voice Control	Siri (Apple Device)

Troubleshooting

1. **Fail to add Slim Tag to the app.**

a. Make sure the tag is powered on and near to the device.

- b. Make sure your device is in the latest version and the Bluetooth is on.
- c. Make sure the tag has not been paired on other device.
- d. If you follow the previous steps and still fail to add, long press the tag's power button for 10 seconds to reset, restart your iOS/Android device, and try again.

2. Slim Tag cannot function well.

- a. Check if the battery level is low. If the battery reaches its limit, please charge it wirelessly.

3.Device not Charging:

- a.Check the connection between the charging pad and power source.
- b.Ensure the TAG is properly placed on the charging pad.
- c.Ensure there are no obstructions between the TAG and the charging pad.

FCC Statement

This device complies with Part 15 of the FCC rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference. (2) this device must accept any interference received, including interference that may cause undesired operation.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses

and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

FCC Radiation Exposure Statement

This device complies with FCC RF radiation exposure limits set forth for an uncontrolled environment. This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.

ISED

The licensed transmitter/receiver contained in this device is compliant with Innovation, Science and Economic Development Canada's RNC for licensed radio devices. The operation is permitted under two conditions:

- 1.The device must not cause interference;
 - 2.The device must accept any radio interference, even if the interference is likely to compromise its operation.
- RF Exhibition Statement:
- The equipment complies with the ISED radiation exposure limit established for an uncontrolled environment.

L'émetteur/récepteur exempt de licence contenu dans le présent appareil est conforme aux CNR d'Innovation, Sciences et Développement économique Canada applicables aux appareils radio exempts de licence. L'exploitation est autorisée aux deux conditions suivantes:

1. L'appareil ne doit pas produire de brouillage;
2. L'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement.

Déclaration d'exposition RF:

L'équipement est conforme à la limite d'exposition aux radiations de la ISED établie pour un environnement non contrôlé.

CE Statement

Hereby, Felion Technologies Company Limited declares that this device is in compliance with the essential requirements and other relevant provisions of Directive 2014/53/EU.
