

EXHIBIT 2 - EUT INTERNAL PHOTOGRAPHS**EUT Housing and Board
View 1****EUT Housing and Board
View 2**

Solder Board-Component View 1	 A photograph of a black printed circuit board (PCB) component, labeled 'Solder Board-Component View 1'. The component is rectangular with a series of small, yellowish-gold solder pads along its top edge. It is positioned horizontally against a blue background. A black ruler with white markings is placed below the component, showing measurements in millimeters. The ruler has markings from 10 to 100 mm on the bottom edge and 10 to 90 mm on the left edge.
Solder Board-Component View 2	 A photograph of a black printed circuit board (PCB) component, labeled 'Solder Board-Component View 2'. The component is rectangular with a series of small, yellowish-gold solder pads along its top edge. It is positioned horizontally against a blue background. A black ruler with white markings is placed below the component, showing measurements in millimeters. The ruler has markings from 10 to 100 mm on the bottom edge and 10 to 90 mm on the left edge.

Solder Board-Component View 3	 A photograph of a small, rectangular printed circuit board (PCB) component, labeled '3', positioned horizontally. The board is dark green and populated with various electronic components, including integrated circuits, resistors, and capacitors. It features a central gold-plated connector strip. The board is placed on a black surface with a white metric ruler (0-80 mm) and a blue background. A vertical white ruler (0-60 mm) is also visible on the left side of the board.
Solder Board-Component View 4	 A photograph of a small, rectangular printed circuit board (PCB) component, labeled '4', positioned horizontally. The board is dark green and populated with various electronic components, including integrated circuits, resistors, and capacitors. It features two circular components, possibly microphones or speakers, and a central gold-plated connector strip. The board is placed on a black surface with a white metric ruler (0-80 mm) and a blue background. A vertical white ruler (0-60 mm) is also visible on the left side of the board.

Solder Board-Component View 5	 A photograph of a black printed circuit board (PCB) component, labeled 'Solder Board-Component View 5'. The component is rectangular and features two large circular holes, several smaller holes, and various electronic components including resistors and integrated circuits. It is placed on a blue fabric surface next to a black ruler with white markings. The ruler shows measurements in millimeters, with the component spanning approximately from 10 mm to 70 mm.
Solder Board-Component View 6	 A photograph of a black printed circuit board (PCB) component, labeled 'Solder Board-Component View 6'. The component is rectangular and features two large circular holes, several smaller holes, and various electronic components including resistors and integrated circuits. It is placed on a blue fabric surface next to a black ruler with white markings. The ruler shows measurements in millimeters, with the component spanning approximately from 10 mm to 70 mm. The component has a label that reads 'RS-022181-LTD-V1.1' and '2420'.
