

Solder Board-Component View 7	 A photograph of a printed circuit board (PCB) component, labeled '7', showing the solder side. The board is rectangular with a central square area covered by a large, silver-colored heat spreader. Various electronic components, including capacitors and integrated circuits, are visible around the perimeter. The board is placed on a blue surface next to a black ruler with white markings for scale.
Solder Board-Component View 8	 A photograph of the same PCB component, labeled '8', showing the solder side from a different angle. This view highlights the central blue square area, which appears to be a chip or a specific functional block. The surrounding components and the board's layout are visible. The board is placed on a blue surface next to a black ruler with white markings for scale.

Solder Board-Component View 9	 A photograph of a complex electronic circuit board, likely a module or board component, showing various integrated circuits, capacitors, and connectors. The board is blue and populated with numerous components. A large, square, silver-colored component is prominent in the center. The board is placed on a black surface with a white ruler for scale, showing dimensions in millimeters. The ruler is oriented vertically on the left and horizontally at the bottom.

Solder Board-Component View 10	 A photograph of a small green PCB component, labeled 'DK25-S1_V2.2' and 'derkiot.com', placed on a blue surface. A black ruler with white markings is positioned vertically to the left of the component, showing measurements from 10 to 50 mm. The component has several solder points and a small antenna structure.
Antenna View	 A photograph of the internal components of a device, showing various antennas and wiring. Two red boxes with labels 'NFC Antenna' and 'WIFI Antenna' are overlaid on the image, pointing to specific components. The device is shown from the back, with a blue background.
