CJ-501

Dimensions

132*103*146mm

Tank Capacity

300ml

Mist Amount

About 30ml/hr

Power Input

DC24V

Rated Power

15.6W

MAINTENANCE INFORMATION

In order to ensure product safety and the efficiency of your diffuser, it is recommended to undertake a maintenance clean after every 5-6 uses.

- 1 Unplug the power cord from the power socket and the base of your diffuser.
- 2 Remove the cover.
- 3 Carefully empty any remaining water from the diffuser. To avoid water entering the device, do not tilt to the side where the air outlet is (where the mist comes out).

NOTE: Do not touch the ultrasonic board at the center of the water tank. In case of maintenance where it needs to be cleaned, please use cotton swabs.

- 4 Using a damp cloth previously soaked in water diluted with dish detergent, wipe down the body.
- 5 Re-fill the diffuser with plain water and let it mist for 30 minutes to clean out any excess oils. Carefully drain after use.
- 6 If any essential oils have dropped on the outside of the water tank, wipe down with a damp cloth.
- 7 Place the cover back on the diffuser.

NOTE: Do not use chemicals such as benzene thinner, alcohol hydrochloric detergents, or enzyme detergents. May cause damage to device and emit poisonous gases. Only use neutral detergents.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation.

This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This device complies with Part 15 of the FCC Rules.

Operation is subject to the following two conditions:

(1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

This device contains licence-exempt transmitter(s)/receiver(s) that comply with Innovation, Science and Economic Development Canada's licence-exempt RSS(s).

Operation is subject to the following two conditions:

- (1) This device may not cause interference.
- (2) This device must accept any interference, including interference that may cause undesired operation of the device.

L'émetteur/récepteur exempt de licence contenu dans le présent appareil est conforme aux CNR d'Innovation, Sciences et Développement économique Canada applicables aux appareils radio exempts de licence.

L'exploitation est autorisée aux deux conditions suivantes :

- (1) L'appareil ne doit pas produire de brouillage;
- (2) L'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement.
